Description:

The work under this Site-Specific, Work Document-driven Contract in Gadsden and Leon Counties consists of litter removal and mowing of drainage outfall ditches. Work may require specialized equipment due to steep slopes, wet conditions, or limited access where standard equipment cannot reach. Work locations are detailed in the Appendices. A total of three (3) Work Documents will be issued at intervals of approximately 60 days. Mobilization and Maintenance of Traffic are incidental to the pay items listed.

Needs The quantities shown on the Bid Price Proposal are approximate and only represent estimated planned requirements based on historical or specific project needs. The Department does not guarantee any maximum or minimum quantity, any range of quantities, or the exact quantities shown for each bid item. The Department estimated quantities and the Contractors bid price will be used to calculate a total bid amount. This total bid amount will then be used to determine the low bidder, however, actual payment under the awarded contract will be based on actual quantities completed. For this Contract in which specific sites are not identified at the time of letting, the Engineer will issue a Work Document. Work Documents will identify the location, description, amount of work to be accomplished, and the number of calendar days to complete the work.
