Florida Department of Transportation
Bid Solicitation Notice and Approximate Quantities

The improvements under this contract consist of signing and pavement markings, ITS systems, lighting systems, minor roadway and/or drainage system construction or repairs on HEFT (SR 821), Sawgrass Expressway (SR 869), and Turnpike Mainline (SR 91) throughout Indian River County, St. Lucie County, Okeechobee County, Martin County, Palm Beach County, Broward County, and Miami-Dade County.

The intent of this contract is to provide means for the Department to quickly respond to unexpected safety and or operational issues for a period of 730 days or until the contracted amount has been reached.

The contractor shall furnish all labor, materials, equipment, tools, transportation, and supplies required to complete the work in accordance with the work plan, specifications, procedures, and terms of the contract. The work under this contract will be controlled by the issuance of work documents. Contract work documents will identify the location, description, amount of work to be accomplished, and the number of calendar days to complete the work. The budgetary ceiling for this contract is 1,000,000 dollars.

All work documents will include mobilization compensation that will account for 10 percent of the final document costs per the contract specifications.

The quantities shown on the Bid Price Proposal are approximate and only represent estimated planned requirements based on historical or specific project needs. The Department does not guarantee any maximum or minimum quantity, any range of the quantities, or the exact quantities shown for each bid item. The Department estimated quantities, and the contractors bid price will be used to calculate the total bid amount. This total bid amount will then be used to determine the low bidder; however, actual payment under the awarded contract will be based on actual quantities completed.

No Pre-Bid Conference.
