

Strategic Intermodal System (SIS) and Shared-Use Non-Motorized (SUN) Trail Program Update

presented to

MPOAC

presented by

Jim Wood

Chief Planner, FDOT

November 7, 2017

SIS Structure and Criteria

2016 SIS Policy Plan

● SIS Objectives

● Continuing Emphasis Areas

- » Reaffirm statutory intent for interregional, interstate, and international travel
- » Continue emphasis on largest and most strategic facilities

2016 SIS Policy Plan

● New Emphasis Areas

**Statewide and Regional
Economic Development
Opportunities**

**Innovation and
Technology**

**Freight Mobility
and Trade
Development**

**Coordination with Regional
and Local Transportation
and Land Use Decisions**

**Modal and
System Connectivity**

Implementation: Focus on Original Intent

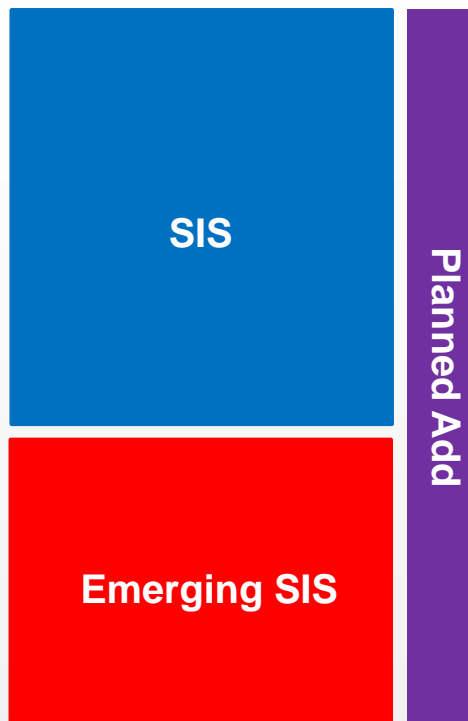

- **Continue to focus on largest and most strategic facilities by combining SIS and Emerging SIS components**
 - » Emerging SIS category would be sunset
 - » Most existing Emerging SIS facilities would meet SIS threshold
- **Recognize importance of smaller and high growth facilities by adding Strategic Growth component**
 - » Support smaller or planned facilities that are projected to meet SIS criteria in the near future
 - » Differentiate Strategic Growth from designated SIS through funding eligibility and prioritization process

Proposed Changes to SIS Structure

Existing

Proposed

Under proposed framework, Planned Add/Drop would be an internal FDOT processing term.

Potential Strategic Growth Criteria

Requires submittal and review of application addressing the following criteria:

- Projected to meet SIS *minimum size* criteria and thresholds within three years of designation
- Determined, with partners, to support an *economic development opportunity* of statewide significance
- Determined by FDOT to be of *compelling state interest*
- Partner *consensus* on *viability* of new facility

Potential Strategic Growth Criteria (cont.)

- Has a current *master plan* including prioritized list of production ready projects; projects should provide a positive ROI.
- Identified in a *local comprehensive plan, Comprehensive Economic Development Strategy (CEDS)*, or equivalent
- Meets *community and environment* screening criteria

Implementation: Increase Emphasis on Co-location and Connectivity

- **Freight Hubs – Support global and domestic trade flows**

- » Include facilities that support the freight network differently than the traditional intermodal freight rail terminal, such as:
 - Intermodal logistics centers (ILCs); warehousing or logistics clusters; etc.

- **Passenger Hubs – Better integrate modal infrastructure and services, information and business processes**

- » Require Interregional Bus and Rail Terminals to co-locate with another facility
- » Support improved first- and last-mile connectivity
- » Consider sunseting designation of standalone Greyhound or Amtrak terminals

Shared-Use Nonmotorized (SUN) Trail Program

Solicitation – *New Request for Funding*

FDOT is soliciting new REQUEST FOR FUNDING(s) for **Regional Trail System and Individual Trail projects** through the SUN Trail program for inclusion in the Tentative Five Year Work Program development cycle. **Projects programmed for this cycle will be funded as early as Fiscal Years 2023/2024.**

To receive consideration for SUN Trail funding, the [District Trail Coordinator](#) must receive a separate, complete REQUEST FOR FUNDING for each eligible Regional or Individual Trail project with applicable information, including the prioritization and required signatures **beginning October 5, 2017 and no later than 5:00 p.m., Eastern Standard Time, December 15, 2017.**

New Request for Funding – *formerly the Project Application*
