CASE
26-01-002

My name is Tony Grimes Transportation Supervisor at Finfrock Transportation. On 10/24/2025 my driver was stop at the scale in Wildwood Fl. Marion County for being overweight. When the driver had to present his paperwork he noticed he did not have an updated blanket permit in the vehicle at the time of the stop. There was a new permit in dispatch for him but the driver forgot to grab it before hitting the road. I was able to send the driver his updated copy while at the scale. We truly apologize for the drivers mishaps and if possible can you please reduce the fine amount? Thanks

This is a letter to protest the citation provided to Sandoval Segundo on august 13, 2025 for not having his CDL license. Although Segundo Guillermo Sandoval Carlosama was pulled over on this date, he did pass his CDL road test on May 6, 2025 in which he received his Achievement Certificate. Even though he was pulled over with the learner's permit, he had already qualified for the license. We sincerely request the Review Board to rescind the first violation penalty of $2500.00 as the driver had the certifications necessary and received his license the day after.

Sincerely,

Jaime Naula

NOT APPORTIONED FOR FL EXPLAINED TO DRIVER:
YOUR VEHICLE, AT TIME OF STOP, WAS DETERMINED TO BE IN VIOLATION OF F.S.S. 316.545(2)(b). THIS STATUTE STATES:

Since your vehicle was not properly registered to operate in FL the weight was rolled back to either 35,000 pounds, or 10,000 pounds, depending on its configuration, and all weight in excess of that limit was then assessed at 5 cent per pound.

Good afternoon,

Our driver had to switch trucks this morning and did not have the correct permit with him at the weigh station. We were told by the weigh station worker that if we could provide proof that we had the permit that predates today's inspection, the penalty would be waived.

I've attached that permit.

Please let me know if you need anything else.

Thank you

Dear Representative,

I am writing to dispute citation #00894451 issued at 9:36am on October 27, 2025. This citation was issued due to a weight overage. The vehicle in question is designated type V, which is for vehicles 75,000 pounds and over so that citation should never have been issued. I am attaching both the citation and the Form 2290 submitted for this vehicle on September 16, 2025. The VIN in question is 5KKHBPDV7RLVG4195.

Sincerely,

Julie K Penfield

Dear Review Board
This letter is in regards to a citation one of my employees received on 10/23/2025 #000894307 (copy of citation is attached). It is in fact true that my DOT certification was improperly filed to be INTRAstate instead of INTERstate. My tow truck is out of Dothan Alabama; this was corrected immediately (a copy of that correction is attached). I do apologize for the error and don't see it happening again.
I would like to ask the review board to please wave this fine due to the idea that my company nor the driver had any intention of deceiving the D.O.T. in any way. We have always tried to comply with all rules and laws of the highway.
One more detail. The citation #000894307 states that the truck in question was a 2019-year model, when in fact the truck is 2010-year model. Not sure if this is grounds for dismissal, but would like for you to take it into consideration.

Dear FDOT and FHP,

I am reaching out to request Citation number 000891158 be set for review or canceled.

This citation was sited against my DOT number 3514882 by mistake. The vehicle is owned personally and was transporting personal equipment for personal gain and not on behalf of my company. The Vehicle is owned by an individual, not by A+ Backbone and Utilities LLC. I would like to request that this citation be removed from my DOT profile. The citation lists my company as the registered owner, as well as the Motor Carrier when in fact we were neither.

Looking forward to the opportunity to speak with you. Thank you kindly for your time and consideration regarding this matter.

Sincerely,

Nichole Tindall

In Re: Cit. No.: 000886804
Driver: Neeraj Bhardwaj
Motor Carrier: Chapple Fuels Ltd.

CITATION PROTEST

FACTS

On September 5, 2025, Driver, Neeraj Bhardwaj, received the citation in this matter for driving a five axle tractor, semi-trailer on I-75 NB & was stopped for an inspection. CASE
26-01-013

D&E Freight, LLC 13663 Providence Road, STE 271 Weddington, NC 28104 (312) 330-6889 dandefreightllc@gmail.com November 5, 2025 Commercial Motor Vehicle Review Board 605 Suwannee Street, MS 90 Tallahassee, FL 32399 cmvrb@dot.state.fl.us Subject: Protest of Uniform Commercial Citation Number 000892487 To the Esteemed Members of the Commercial Motor Vehicle Review Board, I am writing to formally protest the issuance of Commercial Citation Number 000892487, issued on October 22, 2025, in Monroe County. I request that the Board review my case for a modification, cancellation, or revocation of the associated penalties. On October 22, 2025, at 9:48 PM, my driver, Kaie O. Leach, was inspected by Officer Lynn Slyman in Plantation Key, Monroe County. During this inspection, it was determined that the weight on the registration certificate did not comply with regulations, indicating 7,000 pounds. Consequently, a citation was issued for a weight violation. I respectfully request consideration of this weight violation in light of the recent changes within D&E Freight, LLC. I am currently transitioning to the sole ownership of the company, following the departure of the previous owner, who managed the documentation for our trucks. Upon discovering the discrepancies in the documentation, I took immediate action to update the registration certificate to reflect the correct gross weight of the trucks. As D&E Freight undergoes this reconstruction, the citation adds a significant financial burden during a critical time of transition. This challenge is compounded by the ongoing process of ownership separation, which has already resulted in losses for the company. My commitment is to ensure the compliance and success of D&E Freight, which I believe starts with abiding by the law. Therefore, I acted promptly to rectify this matter. I kindly urge the Board to consider my circumstances and either cancel the citation or significantly reduce the fine, allowing D&E Freight to focus on compliance and growth. Attached are relevant documents to support my case: • Citation along with previous and current registration certificate. I am happy to provide any additional details the Board may need to reach a decision. You may contact me at the phone number or email address provided above. Thank you for your attention to this matter. I appreciate your consideration and look forward to your favorable response. Sincerely, James Snowden Owner, D&E Freight, LLC

CASE
26-01-014

We are writing to contest a citation received on September 28, 2025 at the Jackson County Florida Highway Weigh Station. The citation number is 000890838.

We support the road safety laws, but this citation was issued under circumstances that require further examination.

The citation alleges that the single axle group #3 scale weight was 23,860lbs and single axle group #4 scale weight was 22,580lbs; both exceeding the legal axle weight of 22,000lbs in the state of Florida.

After receiving the citation we realize that although the load was evenly distributed on this semi-trailer and the overall weight was under the legal limitations. The axle weights were exceeded due to the total length of the load on this truck tractor/semi-trailer combination. Even though the officer provided the option to move or adjust the load there was no possible way for that to happen in that instant. The driver was not able to adjust at that moment anything on the load. With this combination the driver could only load the material exactly how he had it with the front and rear overhang loaded; any adjustments made to the load could result in further complications not only for the truck tractor/semi-trailer but to the safety of the driver himself.

Given these circumstances, I request that this citation be reviewed and reconsidered for the reputation of this company and record. We value and respect the laws and regulations designed to keep people safe, and we strive to follow them. It is the first time and citation this company has received for any overweight axle limitations in Florida, and we hope that you take this into consideration.

Thank you for your time and attention to this matter.

Subject: Re: Automatic reply: Citation# 000894932

On October 25th we were pulled over for an inspection by Trooper Wallen. Trooper Wallen gave us citations for not having complied to the CDL laws because according to his scales, we were overweight. Which was not true because we were weighed under 26,000 at the shippers location! We were pulled over at a Truckstop with a certified scale and officer Wallen stated that we were "exactly" 500 pounds overweight after we explained that we were weighted already twice and know that we not over! He stated that it was because my truck was not filled up with gas when I was weighted(which was not true and the Trooper could have not know if I was filled up or not during pickup the day before?) we then stated we would weigh the truck to see how much we are over weight and he was really trying to persuade us not weigh ourselves because "those scales are not really accurate" as were the words of Trooper Wallen. Once Trooper Wallen left, immediately we weighted ourselves as you can see according to the weight ticket.

CMV was stopped in accordance with FSS 316.302 and 316.545. CMV observed without US DOT # on CMV. CMV / CARGO: Two axle straight truck x two axle semi-trailer lade with a large gross specialty straight truck. VIOLATION(S): Medical certificate, no CDL, registration, IFTA, US DOT #. COMMENT(S): CMV is in interstate commerce from FL to TX and has a IL straight plate with no IFTA. CMV driver unable to produce any proof of a valid medical certificate while in interstate commerce. CMV IL plate "546299D" is suspended per IL and NCIC for insurance mandatory violation. CMV was weighed with state certified portable scales at actual gross weight of 26,500 lbs. Legal weight of CMV in FL drops to 10,000 lbs with suspended registration. CMV driver has TX Class-C DL only (non-cdl) and CDL class-A is required for this combination (Truck - 11,300 lbs x trailer - 15,200 lbs). CMV has no IFTA decal or certificate proof. CMV did not have required "US DOT #" on any side of power unit. PENALTY: $100 for medical, $100 for no cdl, $95 for no IFTA ($45 IFTA + $50 penalty), $825 for registration ($0.05 / pound over 10,000 lbs). PAYMENT: Twenty (20) days to make payment. OUT OF SERVICE VIOLATION(S): No CDL and no valid medical. Owners statement of reducing his weight was captured on audio/video recording, leading me to believe he dropped weight from inspection time to get his weight down below the certified state weight of 26,500 lbs. Driver and owner were explained UCC multiple times. Owner (passenger) stated to me on camera he was going to get his own scale done and told me 26,500 lbs was not correct. Scales were zeroed and used in accordance with FHP policy. Owner on camera stated to me he would also remove his ramps (large heavy metal style) from trailer. Owner allegedly got a scale done on his CMV after I left scene and claims it was 25,900 lbs. This is not verified to be true and correct to what I weighed at time of inspection. I informed owner my scales were state certified and were sent within compliance to be certified prior. Driver and owner then attempted to call me a liar. I explained to the owner again after multiple explanations to protest it if he did not agree and his options were his own to make. Owner began to laugh at me on phone and he was hung up on while not listening to my response to his questions/concerns.

Subject. Protest of DOT Citation Issued on September 9, 2025 #000886265

Dear Review Board Members,

We are writing on behalf of WG Trans Inc to formally protest the DOT citation issued on September 9, 2025 in Florida, regarding Hours of Service (HOS) violations.

The citation refers to a driving period between Lookout Mountain, TN at 5:52 PM on 09/08/2025 and Lakeland, FL, a period of approximately 8 nours and 60 minutes (about 9 hours), covering 591 miles. During this time, the vehicle was being operated by co-driver Ranjit Singh, as part of a team driving operation with driver Sahil Masih.

Our attached driver logbooks for both Sahil Masih and Ranjit Singh clearly show that all driving times and mileage are properly logged and compliant with FMCSA Hours of Service regulations. There was no violation, as the drive time in question was accurately recorded under the co-driver's log.

At the time of the traffic stop, driver Sahil Masih explained to the officer that the driving period in question was completed by co-driver Ranjit Singh and that all supporting logs could be provided. The officer advised us to forward all documentation and an explanation directly to the Commercial Motor Vehicle Review Board for review.

We respectfully request that the Review Board review the attached logbooks and dismiss all three citations associated with this case, as the evidence demonstrates compliance with HOS regulations.

Thank you for your time and consideration.

Sincerely,

Tejinder Singh

REMARKS

CMV truck tractor/trailer combination, empty, in Interstate operations from Lakeland, FL to Delhi, LA was stopped for no working lights on the trailer & a CVSA inspection. The inspection was conducted in accordance with F.S. 316.302(9) & 316.545(1). During the inspection the CMV driver was asked for his RODs which were provided and transferred. Upon looking at the RODs provided, they were determined to be FALSE & concealing HOS violations as indicated below. The CMV driver placed himself Off Duty in Lookout Mountain, TN at 5:52 pm (logbook time) 09/08/2025 after going into PC to look for parking. The CMV driver appears at 7:01 am (logbook time) in Lakeland, FL. This is missing over 8hr 50m of driving time. The mileage also jumps from 317,032 to 317,623 which is about the distance needed to cover the time missing. This also contributes to an 11 & 14 hour rule violation on both 09/08 & 09/09 as the CMV driver does not completely reset his time and there are no qualifying periods that meet the split provision with the CMV driver claiming NO Sleeper Berth time. The violations below were assessed to the carrier in conjunction with the inspection. The CMV driver RODs were also saved.

1) False RODs: $100.00. (Out of Service).
2) 11 Hour Rule: $100.00. (Out of Service).
3) 14 Hour Rule: $100.00. (Out of Service).

The CMV driver was advised he is Out of Service for 10 hours following the inspection & the total assessment to the carrier is $300.00. Driver was also advised that continued operations while OOS will result in additional penalties & criminal sanctions.

To whom it may concern,

We would like to respectfully protest this citation (copy attached) as we have a couple documents proving that the load was less than the noted weight on the ticket.. We also have an APU system in truck that weights 415lbs please attach specifications report for unit. Based on this we are under the impression we have an exclusion of weight for this amount. Attached you will find the Scale ticket after load was in the truck which would be under the 80K amount once the apu weight is deducted.. furthermore we have a BOL with the weight of the product which will also be less than the said weight by the officer. We respectfully and kindly ask that this citation be removed as there are multiple proof our driver was under the legal weight limit.

BOL noted weight 42418lb + 35000 truck and trial empty weight = 77418LB

Scale ticket weight 80260 -415 APU weight = 79845 lb

We thank you for taking the time to review our documentation in regards to protesting this citation.

Kind regards,

Journey Safety Department

Subject: **Tri Pac™, Tri Pac™ EVOLUTION and Tri Pac^{e} ™ Auxiliary Power Unit Vehicle Weight Exemption**

This document provides confirmation of the published approximate system weights of Thermo King Corporation's Auxiliary Power Units known as **Tri Pac™** , **Tri Pac™EVOLUTION** and **Tri Pac^{e} ™** as follows:

Thermo King Auxiliary Power Unit	Published Approximate System Weight
Tri Pac™	500 lbs / 227 kg
Tri Pac™ EVOLUTION	415 lbs / 188 kb
Tri Pac^{e} ™	505 lbs/ 229 kg

Below is a summary of a portion of the Energy Bill, which discusses the weight exemption issue:

On August 8, 2005 President George Bush signed the Energy Bill (Domenici-Barton Energy Policy). Section 756 of the Energy Bill made changes to Title 23, Section 127(a) that regulates the weight of vehicles to be used on interstate highways. This section provides a 400-pound Vehicle Weight Exemption for idle reduction technology.

Section 127(a) was amended to add item 12 which states the following:

> `(12) HEAVY DUTY VEHICLES-
> `(A) IN GENERAL- Subject to subparagraphs (B) and (C), in order to promote reduction of fuel use and emissions because of engine idling, the maximum gross vehicle weight limit and the axle weight limit for any heavy-duty vehicle equipped with an idle reduction technology shall be increased by a quantity necessary to compensate for the additional weight of the idle reduction system.
> `(B) MAXIMUM WEIGHT INCREASE- The weight increase under subparagraph (A) shall be not greater than 400 pounds.
> `(C) PROOF- On request by a regulatory agency or law enforcement agency, the vehicle operator shall provide proof (through demonstration or certification) that--
> `(i) the idle reduction technology is fully functional at all times; and
> `(ii) the 400-pound gross weight increase is not used for any purpose other than the use of idle reduction technology described in subparagraph (A).'.

Update:

On June 6, 2012 President Barack Obama signed the Federal Highway Bill. As part of the bill the following updates were made in reference to idle reduction technologies to include APU's.

SEC. 1510. IDLE REDUCTION TECHNOLOGY.
Section 127(a)(12) of title 23, United States Code, is amended—
(1) in subparagraph (B), by striking "400" and inserting "550"; and
(2) in subparagraph (C)(ii), by striking "400-pound" and inserting "550-pound".

As a result of these changes the new federal weight exemption has been increased from 400 pounds to 550 pounds for an APU.

Best Regards,

Subject: Dismissal Protest

Good evening,
I am writing to protest a fine that I have received in your State\county. I did not know that Florida had a specific rule for their tandem to kingpin via Bridge law. If I had known, I would have gladly fixed this issue before entering the state. I would never had driven with my tandems incorrect knowingly. I also was not asked for my permit at the time of the stop when after entering scale.The officer only asked for the vehicle registration and then proceeded to ask for my entire folder containing the permit. Then he proceeded inside after instructing me to park n come in to office. I do not have any violations and would like to ask for this fine to be revised and removed. I have sent in my driver license as proof of nothing on my record towards driving trucks and I am very compliant to best of abilities especially when safety it comes to safety rules and regulations of any kind.Thank you for your time and consideration.

Commercial Motor Vehicle Review Board

Flagler County, Florida

Subject: Request for Leniency / Protest of Citation #895278

To Whom It May Concern,

I respectfully request leniency and a review of Citation #895278 issued in Flagler County for an alleged overweight violation. The concern was caused by a temporary registration discrepancy which inaccurately made it appear that my vehicle exceeded the legal weight limit. In reality, both my vehicle and load were within compliance.

Earlier that same day, I passed through a weigh station in the West Palm Beach area without any issues related to registration or weight. This further demonstrates that my vehicle was compliant and that the concern in Flagler County was a one-off administrative discrepancy.

Upon release from the weigh station, I corrected the registration issue within one hour, and the DOT officer on site encouraged me to complete my delivery — which I did safely and legally.

HPT LLC (Honest Precise Transportation) takes safety and compliance extremely seriously. I am fully compliant with FMCSA regulations and recently completed an FMCSA audit with no issues detected related to weight, registration, or safety. I have passed through this same weigh station numerous times without incident, and this was an isolated, non-intentional administrative issue that was resolved immediately.

Given the circumstances, my strong compliance history, and the corrective action taken on the same day, I believe a warning or reduced penalty would have been more appropriate. Therefore, I respectfully request reconsideration of the citation or a reduction of the associated fines.

I am prepared to provide any supporting documentation, including proof of the corrected registration and have time of ticket and time of registration being fixed as well and the new updates registration attached to this email

and FMCSA compliance status.

Thank you for your time and fair consideration.

Respectfully,

Robert Trejo

Subject: Request for CMVRB hearing
Attachments: Alisher Guriev Ticket king pin permit back.jfif; Emailed King Pin permit.webp; Alisher Guriev Ticket king pin permit.jfif

Hello,

Please accept this email as a formal request for a CMVRB hearing regarding citation number **000892940**.

Our driver was stopped for inspection and informed that, because his kingpin was set more than 41 feet, he was required to have a Kingpin Permit due to operating a 53-foot flatbed trailer. Upon checking his documents, the driver realized he did not have the permit in his possession at that moment.

While still at the weigh station, the driver contacted our after-hours department, and the permit was immediately emailed to him. The driver then presented the **vehicle-specific Kingpin Permit**, which clearly shows it was issued on **07/18/2025** and is valid through **07/18/2026**.

Despite providing the valid permit at the weigh station, the officer still issued the citation, stating that the driver did not have the permit at the time of entering the station.

We respectfully request that this citation be reviewed and dismissed, as the permit was valid and in effect during the time of the stop. The only issue was that the driver did not have the physical copy on hand initially, but it was promptly provided and verified while at the station. We have fully paid all required fees to the State of Florida to ensure our compliance.

Attached is the email sent to the driver with the permit, including a timestamp (CT) confirming when it was transmitted.

Thank you for your time and consideration.

Sincerely,

Best Regards,

Kris Bozhinovski

REMARKS

King Pin Violation
Due to King Pin Setting; Over Dimensional Trailer Length: F.S. 316.515
Over length on kingpin setting greater than 41 feet. Vehicle weighs 67,540 lbs with 5 axles and is hauling rock. Inspector measured a 66 feet, 5 axle truck tractor semi-trailer exceeding 48 feet in length, but not more than 57 feet and the kingpin measured more than 41 feet from the kingpin to the center of the rear tandem axle . Inspector measured a 53 foot trailer, which makes the trailer over legal length of 48 feet when no adhering to the legal 41 feet or less kingpin setting as per F.S.316.515 (3) The kingpin setting physically measured by inspector from the kingpin to the center of the rear axle measured at 45 foot 9 inches. The split in the rear axles measured by inspector at 10 feet 02 inches. The state mandate 3 inch tolerance still measured more than 41 feet, calculates to a penalty of $100.00 . Not on hot list. A copy of the lease is attached to the agency citation copy.
At 6:47 driver received permit # 2531672-2025-0001 expires 07/18/2026.
Driver advised to establish a kingpin of 41 feet or less before continuing on route or -obtain a permit from the Florida permit office before proceeding on or another citation could be issued.

To whom it may concern,
I am writing to formally protest and request a review of the citation issued for operating with no registration. I operate in good faith and comply with all applicable safety requirements. The lack of registration was unintentional, and I took immediate corrective action once notified. Our company operates as a small driveaway service. At the time of the citation, we believed all regulatory requirements including registration had been handled in accordance with Florida law and industry standards. We take this matter seriously, and have already reviewed our procedures to ensure full compliance with Florida transportation. We are committed to making certain that any future entries into the State of Florida will be in complete compliance with all applicable laws and requirements. As a small business, we greatly appreciate the opportunity for a fair and understanding review of this matter. We take pride in maintaining compliance, and respectfully ask that our good-faith efforts and circumstances be given full consideration.

Sincerely,

Statement:

I respectfully petition the Court to dismiss or reduce the citation I received for "No Registration" in connection with the vehicle listed above. At the time the citation was issued, my vehicle was properly registered and valid with the Department of Motor Vehicles.

It appears that the registration status may not have been reflected accurately in the system at the time of the traffic stop, or that there was a misunderstanding or documentation issue. I have attached proof of valid registration showing that the vehicle was registered and active on the date of the citation.

I take compliance with registration laws seriously and have ensured that my registration has always remained up to date. I respectfully request that the Court consider this evidence and either dismiss the citation or reduce any associated fines or penalties.

Thank you for your time and consideration.

Sincerely,

Inspector measured a 60 foot Illinois based truck tractor semi trailer hauling general freight with a gross weight of 78,220 lbs. Vehicle registration had an expiration date of 03/31/2025.
Violation: Expired Registration
Per Florida Statute 316.545(2)(b) with an expired registration a Laden, truck,tractor operating with a expired registration is allowed 35,000 pounds, Making the vehicle 43,220 pounds overweight @ $0.05 per pound for a total assessment of $2,161.00 .
Copies of the registration and the NCIC queries for tag # P1199493 and V.I.N. # 3akjhhdr5rsuv7125 are attached to the agency copy of this citation.
Inspector called FHP Dispatch # T123 and was informed that the VIN # 3AKJHHDR5RSUV7125 from IL came back not registered. The tag that was on the tractor was also checked and came back with another VIN # and for a VOLVO not a Freight liner. The tag on the registration given by the driver tag # P1199493, IL came back with no information by FHP.
Vehicle had a 2025 IFTA.
DOT # was on HOT LIST. Citation # 000874855 for $100.00.
Driver was given a copy of the explanation for Florida Statute 316.545(2)(b) with contact information.
Driver informed to obtain proper registration before vehicle may leave the scale facility.

Explanation for not apportioned for Florida and expired or no registration.
Your vehicle at the time of stop was determined to be in violation of FS 316.545 (2) (b)
The statute states: In those cases when the commercial vehicle as defined in F.S. 316.515 (2) (b) is being operated over the highways of the state with an expired registration or with no registration from this or any other jurisdiction or is not registered under the applicable provisions of Chapter 320, the penalty shall apply on the basis of 5 cents per pound on that scaled weight which exceeds 35,000 pounds on laden truck tractor/semitrailer combination or tandem trailer truck combinations or 10,000 pounds on any un-laden truck tractor/semitrailer combination or tandem trailer truck combinations and 10,000 pounds on laden or un-laden straight truck commercial motor vehicle.
Since your vehicle was not properly registered to operate in Florida, the allowed weight was rolled back to either 35,000 pounds or 10,000 pounds depending on its configuration and all weight in excess of that limit was then assessed at a 5 cents per pound penalty.
Please feel free to call if you have any questions or concerns.

Wetzel, Lisa

From: Safety Lucky Wheels <safety@luckywheelsllc.com>
Sent: Friday, November 7, 2025 11:34 AM
To: Commercial Vehicle Review Board; FHPCommercialVehicleEnforcement@flhsmv.gov
Subject: Request for Review and Correction – Overweight Citation (FL Citation #000895653)

Hello,

I am submitting this request for a review and correction regarding an overweight citation issued to our driver on **November 6, 2025**, in **Yulee, FL**.

Carrier: Lucky Wheels LLC
Citation Number: 000895653
Vehicle: Straight truck, Tractor #241
Gross Weight on CAT Scale: 28,620 lb
Load: Windows and Glass – 8,000 lb (see attached Bill of Lading)

The citation incorrectly classifies this as an **overweight violation**. The attached **CAT Scale certified weight ticket** shows the gross vehicle weight was **28,620 lb**, which is **well below the federal legal gross limit of 33,000 lb** for straight trucks.

The officer's notes indicate the violation was based on **registration weight**, not an actual overweight condition. The Illinois registration for this unit reflects 10,000 lb under a straight truck classification. This discrepancy arises from **administrative registration limits**, not from operating an overloaded or unsafe vehicle.

We respectfully request this citation be reviewed and reclassified accordingly, as the **vehicle weight was within safe and legal operating limits** under federal and state axle load standards. Supporting documentation is attached:

1. CAT Scale certified weight ticket (11/06/25)
2. Bill of Lading showing shipment weight (8,000 lb)
3. Copy of citation for reference

Thank you for your consideration and for reviewing this matter.

Sincerely,

Sir/Madam, We received this violation on 10/18/2025. Our company was in the process of getting the IFTA and Apportioned paper work filed. The documents attached will show you an e-filing date of 9/29. We didn't have the actual certificate or sticker at the time of the stop, but were in compliance, since it all was approved. This license is issued under the terms of the INTERNATIONAL FUEL TAX AGREEMENT (IFTA) and is valid for vehicles operated by the registrant name in all IFTA jurisdictions.

The Alabama IFTA license and decals serve as proof that you have been registered under the IFTA provisions with the state of Alabama. **This license may be shown to law enforcement as an electronic image on a computer, tablet, smart phone or as a paper copy and must be provided in each IFTA qualified vehicle.** This license is not transferrable between carriers. Each qualified motor vehicle will be issues two fuel decals. One decal must be placed on the exterior portion of both the passenger and driver side of each vehicle. Failure to display the fuel decals in the required location may result in the issuance of a citation and/or additional fuel purchase requirements.

In accordance with Alabama Department of Revenue Administrative Rule 810-5-9-.10, IFTA Quarterly Fuel Tax Returns, you are required to electronically file an International Fuel Tax Agreement (IFTA) quarterly fuel use tax return. **A tax return must be filed even if you do not operate during the reporting period.** You are required to maintain mileage, fuel, and bulk storage records to support the information reported. You must retain these records and copies of the tax returns for a period of four years from the due date of the return or the date the return was filed, whichever is later. You may cancel the IFTA account by submitting a written request for cancellation. The department will cancel the account provided no liabilities or delinquent returns are outstanding. Please include your client ID on all correspondence forwarded to the Motor Vehicle Division.

Carriers renewing their IFTA license and decals have a two-month grace period (January and February) to display the renewal IFTA license and decals. To operate in IFTA jurisdictions during this grace period, carriers must display either current or prior year IFTA license and decals from the jurisdiction in which they were operating or a valid single trip permit from the IFTA jurisdiction in which they are operating. If you have any questions regarding IFTA requirements, Call (334)-242-9000, option 4.

Sir/Madam, We received this violation on 10/18/2025. Our company was in the process of getting the IFTA and Apportioned paper work filed. The documents attached will show you an e-filing date of 9/29. We didn't have the actual certificate or sticker at the time of the stop, but were in compliance, since it all was approved. I sent Officer Candace Williams (ID # D17116) all the documents via email at the time of the traffic stop and all the original certificates 1 day after the stop, but it was ignored. REMARKS

Truck tractor/semi-trailer entered the Scale. I measured the trailers overall length at 53 ft. Kingpin setting was measured at 44 ft. The trailer exceeded the legal length of 48' according F.S. 316.515(3)(2a,b). The trailer was 5 ft over length with the above kingpin setting. A citation was issued and the driver was instructed to set the kingpin distance to legal length before leaving the scale facility.

Note: At time of stop, driver did NOT have a Cab Card. Madison Scales had already written this Carrier a Registration Case (including a Trip & Fuel Permit) due to having a Straight Plate instead of an Apportioned Plate.

CASE
26-01-028

Florida Highway Patrol

Commercial Motor Vehicle Review Board (CMVRB)

4050 Esplanade Way

Tallahassee, FL 32399

Subject: REQUEST FOR DISMISSAL – CITATION NO. 000895686

To Whom It May Concern,

We are formally requesting the dismissal of Commercial Motor Vehicle Citation No. 000895686, issued on 11/14/2025 to vehicle VIN: 1HTMMM0L5B5336599, operated by Global Express LLC.

The vehicle was cited for being "Not Apportioned for Florida," and a weight rollback under Florida Statute 316.545(2)(b) was applied. However, this citation does not apply to this vehicle.

This vehicle is a 2-axle commercial straight truck, legally registered in North Carolina with a declared gross vehicle weight of 26,000 lbs (see attached registration card). Under the International Registration Plan (IRP):

"A vehicle having two axles and a gross vehicle weight of 26,000 pounds or less is not required to be apportioned and may operate interstate with base state registration only."

(IRP Plan, Section 403 – Vehicles Not Required to Apportion)

Because this vehicle does not exceed 26,000 lbs and has only two axles, it is not subject to IRP apportionment in any jurisdiction, including Florida. The application of Florida Statute 316.545(2)(b), including the rollback and 5-cent-per-pound penalty, was therefore applied in error.

REQUESTED ACTION:

1. Immediate dismissal of Citation No. 000895686.

ATTACHMENTS:

- North Carolina Registration Card showing 26,000 lb weight
- Copy of citation documents including "Not Apportioned for Florida Explanation"

Sincerely,

Global Express LLC

To Whom It May Concern,

I am writing to formally contest the citation I received on **October 29, 2025**, at a **Florida weigh station**.

On the evening of that date, I passed through two weigh stations without any issues. Upon entering the third weigh station, an officer approached me and requested my permit, assuming that I was transporting an oversized load. I explained that my load was not oversized. The officer then measured my load, confirmed the dimensions, and instructed me to park the truck and bring my documents and driver's license into the office.

Once inside, I provided my driver's license as requested. The officer did not explain the reason for this request, and before I had an opportunity to ask any questions or offer clarification, he issued me a citation. He informed me that it would not count against my license but did not provide an explanation for the citation or an opportunity to discuss it.

The officer then instructed me to slide the tandems. For safety reasons, I have always been trained **not to place a wrench on the tire**, as doing so could cause serious damage or injury if a tire were to blow. Despite my explanation, the officer insisted that I close the tandems, which caused the tire to rest in an unsafe position. To avoid further conflict and potential violation, I complied, even though it contradicted standard safety practice.

However, my **scale records from that date (attached)** clearly show that my load was **not oversized**. Based on this evidence, I believe the citation was issued in error and without proper justification.

I respectfully request that this citation be **reviewed and dismissed** in light of the facts and supporting documentation provided.

Thank you for your time and consideration. Please contact me at **(561) 729-1485** or **ginadaniel42@gmail.com**

Dear Sir or Madam:

Please be advised this office represents the interests of the above-named individual with reference to Commercial Motor Vehicle Citation Number 000888246 issued on October 21, 2025.

Mr. Johnson had made numerous attempts to get his vehicle inspected but was unable to do so because any and all facilities that he brought his vehicle to were unable to perform the inspections needed for him to be in compliance.

Luckily, Mr. Johnson has since been able to have his vehicle inspected and we ask that the fine of $1,180.00 be waived since he is now in compliance.

Thank you for your assistance regarding the above. Should you have any questions or require any additional information, please do not hesitate to contact us.

Sincerely,

Jaime L. Delgado, Esquire

REMARKS

Today I stopped the above listed vehicle to conduct a weight and safety inspection. I asked the driver for his drivers license, vehicle registrations. The driver was unable to provide me with a valid vehicle registration for the dump truck. I ran the tag of the truck through FCIC/NCIC and found that the registration had expired as of 5/31/2025.

The combination vehicle weighed 33,600 lbs minus 10,000 lbs (legal weight for an improperly registered unladen truck) equals 23,600 lbs over legal weight @ .05 cents per lb. The driver stated he was unable to update the registration due to the Government closure ie Heavy Highway Vehicle road tax.

Subject: Formal Protest of Citation for Expired Vehicle Registration — 000890653

Dear Sir or Madam,

I am writing to respectfully protest the citation I received on [09/27/2025] for operating a vehicle with a registration that was expired for more than 90 days. The citation number is [000890653], and it pertains to my vehicle, a [2023, INTL] with license plate number [AZ106D].

I fully understand the importance of maintaining current vehicle registration and recognize that the expiration was an oversight on my part. However, immediately upon receiving notice of this violation, I took prompt action to correct the issue. The vehicle registration has since been renewed and all related fees have been paid in full. Attached are copies of the current registration and payment confirmation for your reference.

Given that the issue has been fully resolved and that there was no intent to evade compliance, I respectfully request that the citation be reconsidered or dismissed in light of the corrective actions taken. I have always endeavored to maintain my vehicle in compliance with Florida law, and this lapse was unintentional.

Thank you for your time and consideration of my request. I appreciate the Florida Highway Patrol's service to our community and your understanding in this matter. Please feel free to contact me at [646-739-6890] or [awolfe@888jphogan.com] should you require any additional information.

Sincerely,

To Whom this may concern:

Good morning! One of our trucks was stopped at the scale house due to "improper" permitting. According to our tag registration, Florida has an 80,000 lbs. max before needing a permit. We purchased two "Oversize/Overweight" permits to make the trip to and from Jacksonville, FL to cover the trip and any overages. With these being self-propelled concrete pumps, they don't fluctuate in weight. Officer T.R. Holden ID #3537 gave my driver a citation anyways. This shouldn't have been a citation. I have attached the citation as well as both permits for this trip.

Please advise

REMARKS

4 axle straight truck that is unladen traveling in Interstate Commerce.

The vehicle exceeds the maximum legal permitted weight. Actual GVW is 78,540 pounds minus legal permitted weight of 77,160 pounds equals 1,380 pounds over. Cited at .05 cents per pound over for a total penalty of $69.00.

The permit the driver provided is #2579245-2025-0001 valid from 11/11/25 through 11/21/25 for 77,160 pounds. I advised the driver to get legal (by obtaining the proper permit) before departing the weigh station or further enforcement action could be taken.

1st Permit #2579156
2nd Permit# 2579855

Mk oversize ships mobile offices trailers and we're safe in doing so and we always play by the rules our DOT 3754660.

Well today 11/12/2025 our 4 trucks were traveling westbound on I-10 with oversize load permits for all 4 trucks. We go into Sneads scale house with permits just like we have been doing for months on this project. Well the 1st 3 trucks were fine no issues but when she got to the 4th truck the permit had straight truck listed on the permit like our other 3 trucks with beds on the back of them are listed but the problem was that last week we pulled the tire rack/ bed off of our volvo so its a tractor and not straight truck. So my wife fixed it immediately by getting a new permit right then with truck listed as tractor which nothing else changed, all the measurements and everything on permit stayed the same.
But instead of Allowing us to just pay for 2 permits for the same truck Ms.Weber voided our 1st permit and ticketed us for $2000.00 over a simple mistake.
We always get permits and play by the rules and we realize we had the truck listed wrong on the 1st permit. The reason for a oversize permit is for dimensions and the dimensions stayed the same on both permits and it cost us $20 bucks for a simple mistake but voiding our permit and charging us $2000.00 puts us in the hole $700 on hauling the load.
Can we please get a warning ticket are something, times are tight and we're doing all we can to make ends meet.
Check our DOT record were a by the book company trying to do things right.
Thank you so much for taking the time to read this message.
If you need to contact me with any questions please do so.

CASE
26-01-035

ATLANTIC CONCRETE
WASHOUT, INC.

November 13th, 2025

To Commercial Motor Vehicle Review Board,

My name is Jose Hermoso Leon and I would like the opportunity to protest a citation which I received on 11/04/2025. The Citation # is 000895223. On the date of the incident, I was operating a vehicle for my Employer, Atlantic Concrete Washout in compliance with all safety and operational regulations. During the inspection process, my limited English proficiency made it difficult to fully understand the officer's questions. I honestly made my best efforts to communicate with the officer yet I was issued an out of service citation. I strongly believe that the officer made a quick decision as I was only asked 5 questions which I answered several correct. I fully understand that I must speak better English to fully communicate with the officer and this is why I have registered to school to better understand the language. I consider myself a very responsible driver. I have had my CDL License since 2014 and I have never had a ticket or an accident for any of my employer's. My current employer, Atlantic Concrete Washout which I have been working with since October 31st, 2019 will attest that I am a responsible driver and respect all rules and regulations. Attached you will find my registration for school to learn the English language as well as the citation which I have already paid. I am respectfully asking that the Commercial Motor Vehicle Review Board review my case, and when appropriate remove the out of service violation from my record. I am a hard working employee and need the opportunity to be able to work and provide income for myself and my family. Once again, thank you for your time and consideration on this matter and hope it will get resolved soon.

Sincerely,

Jose Hermoso Leon

CASE
26-01-037

Good morning/afternoon. Through this letter, I would like to know if it is possible to dismiss or reconsider the amount of citation number 000889550 that was issued to me on November 13, 2025, at 9:46 AM. The registration that Officer D. R. Morrison reviewed clearly shows that the weight limit is 70,000 pounds, but when he weighed the truck, it had a full weight of 66,800 pounds. The citation was issued for being overweight, but my registration shows that the limit was 70,000 pounds. The officer said that the type of license plate I was using was incorrect, but the DMV registration I received is for 70,000 pounds. I believe there was an error or something similar, but in any case, I managed to go to the DMV and correct the error on the same day the citation was issued. I will send photos of the old and new registrations so that it can be seen that everything is resolved. I hope my case can be dismissed. Please reconsider the amount, as it is quite a high sum these days, and the toll violations have already been paid. With a new registration and plate, thank you very much for your time.

REMARKS

Today I stopped the above listed vehicle to conduct a weight and safety inspection. I asked the driver for his drivers license, vehicle registration. The vehicle is a four axle dump truck. The vehicle has a GVW wrecker tag assigned to it, which is an improper use of a tag. The registration has an administrative stop on as of 11/10/25 for a toll violation. The registration has also been corrected to show a DGVW of 23,800 lbs.

The vehicle weighs 66,800 lbs. legal weight for a straight truck with an improper use tag/administrative stop is 10,000 lbs. 66,800 lbs minus 10,000 lbs equals 56,800 lbs over legal weight @ .05 cents per lb.

The vehicle is also displaying a carrier name and USDOT number on the left side which is not contrasting in color, black lettering on very dark blue paint.

COMMERCIAL MOTOR VEHICLE REVIEW BOARD

FLORIDA DEPARTMENT OF TRANSPORTATION

605 SUWANNEE STREET, MS 62

TALLAHASSEE FL 32399

Date: 11/7/2025

Subject: Protest of Commercial Motor Vehicle Citation No. 000891881

We are writing to formally protest Commercial Motor Vehicle Citation No. 000891881, issued on November 5, 2025 to our driver Kenneth Harold Hight for an alleged Permit Violation - Operation Not in Conformance with Law/Special Permit (Florida Statute 316.550).

At the time of the stop, our company had obtained the required Trip Permit (#2578471) for the movement of an over-dimensional load. We understood that the only additional document needed to accompany this permit was a Letter of Essentiality. We were not aware that a Route Survey was also required for this particular movement. Upon learning this requirement at the scale house, we immediately took corrective action. Our operations manager, promptly contacted Super Daves Pilot Car Service, Inc., and obtained a Route Survey on the same day, November 5, 2025. The completed route survey, conducted by David Crum (Certificate #P48611376), was placed on company letterhead and provided to the officers at the scale house as soon as it was available.

This was an honest administrative oversight and not an attempt to evade permit compliance. The load was moved under authorized dimensions and conditions, and the proper documentation was promptly secured once the misunderstanding was clarified. We acted in good faith to comply with all regulations as soon as the missing requirement was identified.

We respectfully request that this citation and the $1,000 assessment be reviewed and dismissed, given that the required route survey was completed and presented immediately after clarification, demonstrating our intent and effort to operate within compliance.

Thank you for your time and consideration of this protest. Please contact us at +1 (206) 424-8344 if you need any additional information.

Sincerely,

Moldstar LLC Safety Team

To Whom It May Concern:

I am writing to respectfully explain the circumstances surrounding the ticket I received on **October 28, 2025** for an **overweight violation** while operating my truck at the intersection of **Linebaugh Avenue & SR, Tampa, Florida**.

On that day, I loaded my truck with Miller at **12900 Parsons Rd, Tampa, FL 33635**, an area undergoing street repairs. Due to ongoing construction, with machinery actively demolishing and filling in trucks, there was no feasible way to weigh my truck before departing. The nearest certified scale was approximately 10 miles away, which made it impossible to verify the truck's exact weight before beginning my route.

My intention was to proceed directly to the scale to ensure compliance, but I was stopped by law enforcement before I had the opportunity. At no point did I intend to violate transportation regulations; I acted in good faith, relying on the information provided by the company and the standard loading practices at that location.

I sincerely regret any inconvenience this situation may have caused and am fully willing to take any steps necessary to rectify the matter. I respectfully request that the circumstances be taken into consideration when reviewing this ticket, given that the overweight condition was unintentional and beyond my control.

Thank you very much for your understanding and consideration of this explanation.

Sincerely,
Alexander Nunez

Subject:	Contest of Overweight Citation — Citation #00897112
Attachments:	FLORIDA CITATION .pdf; CAT SCALE TICKET NUMBER .pdf; ACI MANIFEST .pdf

To Whom It May Concern,

We are submitting this statement on behalf of our company driver Jobanpreet Singh, who received an overweight citation in Florida on 11-8-2025 for being approximately 720 lbs over the 80,000 lb legal limit.

Prior to this citation, the same truck and trailer combination was weighed at the CAT Scale in North Fort Myers, on 11-08-25. The certified CAT scale ticket (attached) recorded a gross vehicle weight of 79,660 lbs, confirming full compliance with federal and state limits.

The ACI manifest for this shipment lists a cargo weight of 43,200 lbs, with a tractor–trailer tare weight of approximately 36,460 lbs, for a combined declared gross of 79,660 lbs. The load was sealed, unchanged, and transported directly under the same configuration.

Based on the certified weight at origin and verified cargo information on the same day as the citation, both the driver and company were in full compliance with all federal and state gross weight regulations at the time of departure. We respectfully request that this citation be dismissed on the basis of documented compliance and negligible variance.

Attachments:

- CAT Scale ticket — North Fort Myers (79,660 lbs)
- ACI Manifest — Load of 43,200 lbs
- Copy of Florida citation

Sincerely,

Maninder Khela

President

CASE
26-01-043

Dear Commercial Motor Review Board,

I, Mitchell Jones, would like to protest Remark #5 as stated on citation #000894310.

The total weight of violation assessment has been incorrectly assessed.

This citation should represent the operation of a combination vehicle, not a straight truck, which is listed on Remark #5.

Citation #000894310 states that the actual vehicle weight is 27,700lbs, and that the legal weight is 10,000lbs, resulting in total overweight of 17,700lbs.

I believe this to be calculated incorrectly.

The citation lists the combination of the power unit (Ford Truck) and Trailer. Units numbered M1 & M2.

Power unit M1 has a GVWR of 10,000lbs. (see attached exhibit A)

Unit M2 has a GVWR of 15,680lbs. (see attached exhibit B)

This information was listed on the vehicle exam report (FL2829000697) and citation.

The combined GVWR of this combination unit is calculated at 25,680lbs.

Therefore, I believe that ACTUAL overweight should be recalculated to reflect the difference of the combined legal weight and the actual weight.

Actual weight- 27,700lbs minus the combined legal weight of 25,680lbs- would result in an overweight difference of 2,020lbs.

With the information presented in accordance with Florida Statute Section § 316.545b/sub section (3)(a) 1 & 2, the fine assessed would be $10 for the first 200lbs over, and $0.05 for each pound after that.

With the correct calculations the assessed penalty should reflect the amount of $101.

2,020lbs minus 200lbs($10) equals1820lbs x $0.05($91) $91+$10=$101

Protest of the reported registration on citation #000894310.

See exhibit C (registration)

Registration reflects that Ford Truck/trailer has a legal weight of 26,000lbs.

The legal weight reported is 10,000lbs. on the citation as stated in Remark #5

Protest of tag information on citation #000894310.

See exhibit D(tag)

The stated tag information is incorrect. The tag reported on the citation is not the tag that was on the vehicle at the time of the traffic stop.

Protest of last name reported on Driver examination report #FL2829000697

The last name reported on the driver examination report is incorrect. It does not match the last name that was reported on citation #000894310.

My name is Joshua Howard tell him this may concern. I was pulled over in Florida. I had four separate loads on my truck. I have attached to this email. The weight was under 10,000 pounds it was right at around 8900 pounds. What I had went through this way station I had already passed several way stations from Indiana to Florida. Then I got to this one in particular wave station that I wish it was always still outside before I hit the scale and as soon as I hit the scale, he told me I was overweight Reason for me reaching out is I was not aware of me being over the weight limit due to the RCS that the brokers have sent me, I thought I was still in my operating weight range. If you all can help me fight this I would greatly appreciate it. I have learned that I do need to go ahead and get weighed after I get loads from brokers to verify the weights, but I am 100% unaware of that I was over the weight limit.

To whom it may concern, I am writing to request a dispute for the traffic ticket I received. I believe the citation was issued in error, as the agent did not notice the valid stamp on my permit. I have the Bill of Lading, which clearly indicates that I was authorized to transport the load in question. I would like to submit this documentation for review and respectfully request that the overweight ticket be dismissed. Thank you for your attention to this matter. Best regards, Enrique Campillo

CASE
26-01-048

November 17th, 2025

To whom it may concern,

We are writing to you today as a family owned and operated local plant nursery that is approaching its 25th year in business. Our plant nursery provides a wide selection of plants, trees and agricultural products to Davie / Cooper City and the surrounding areas. As a byproduct of our business operation, we deliver a very small fraction of our agricultural products to our customers.

On October 23rd, 2025 we were issued a Commercial Motor Vehicle Citation #894355 which listed (3) violations (attached). We have addressed the first two violations on the Vehicle Examination Report (license tag / fire extinguisher) but have a concern regarding the third, the CDL requirement, and would like to have this reviewed by the Board. We feel we have a Covered Farm Vehicle Exemption due to the below points:

1) We are a bona-fide agriculture business (farm) operating on agricultural land (Nursery Registration attached)
2) We carry the Farm Vehicle destination in the vehicle (attached)
3) The vehicle is only driven by the owners of the business or the direct employees of the business
4) We only transport agricultural commodities within 150 air miles from our farm (we carry bagged stone incidentally and will discontinue that practice if stone is not determined an agricultural commodity (see below)*
5) We are not a 3rd party independent delivery service; we are transporting our agricultural goods directly to our customers. I also found an FMCSA definition of "Exempt For-Hire" / Administrative Ruling 119. Not 100% sure if this definition is helpful but wanted to include it regardless.

In conclusion, we believe the spirit of the covered farm vehicle exemption is for entities exactly like us, agricultural farms transporting agricultural goods from their farm. We diligently researched this topic prior to beginning our delivery routines with our Chevy Silverado 6500 and its attached equipment trailer.

Additional notes:

*The products we transport are on the agricultural commodities list (Administrative Ruling 119):

- "Bagged commodities" - placing exempt commodities in bags does not affect their exempt status"
- "Grass sod" - Exempt
- "Bark" - Exempt
- "Nursery Stock" - Exempt
- "Plants, vegetable and flowers" - Exempt
- "Wood chips" - Exempt
- "Rock" - Not exempt* *Natural crushed vesicular rock used for decorative purposes - Exempt. (If this one is a sticking point, we'll adjust our delivery techniques immediately).

We appreciate your review and comments and look forward to providing additional information and/or further communications in an effort to resolve this matter.

Sincerely,

Stephen Young

Tallahassee, FL 32399

Re: Protest of Citation Number 000892757 (Weight Violation)

To Whom It May Concern:

Introduction

On behalf of AOT Delivery LLC, I am submitting this formal letter of protest regarding citation number 000892757, issued for a weight violation involving our commercial vehicle. The purpose of this letter is to respectfully request the removal of this violation from our company's Safety Measurement Score (SMS) due to extenuating circumstances beyond our control.

Citation Details

The citation in question was issued for operating a vehicle with a recorded weight of 33,120 lbs, which is 7,120 lbs over the allowable limit. We acknowledge the accuracy of the measured weight at the time of inspection and understand the seriousness of such violations.

Explanation of Circumstances

Prior to the transport, our company received booking documentation and load information from the contracted broker. The broker's materials explicitly stated that the load would not exceed 8,000 lbs. Relying on this information, we dispatched the appropriate vehicle in compliance with its Gross Vehicle Weight Rating (GVWR). At no point were we made aware that the actual load would significantly exceed the communicated weight. The overweight condition was therefore unintentional and directly resulted from reliance on the broker's provided details.

Acknowledgement of Violation and Fine

AOT Delivery LLC fully acknowledges the violation and is prepared to pay any fines or penalties as required by law. We remain committed to compliance with all state and federal regulations and will take further steps to ensure accuracy of load information in future operations.

Request for SMS Removal

Given the circumstances described, we respectfully request that the Florida Department of Transportation remove citation number 000892757 from our company's Safety Measurement Score (SMS). The violation was not the result of willful negligence or disregard for safety standards, but rather a consequence of incomplete and inaccurate information provided by the broker. We believe this request is justified based on our good faith efforts to comply with all applicable regulations.

Conclusion

We appreciate the Review Board's consideration of our protest and request. Should you require any further documentation or clarification, please contact us at (734)732-6784 or AOTDelivery0@gmail.com. Thank you for your attention to this matter.

Respectfully,

Kenneth Belcher

Hello. We are protesting this citation. Our driver scaled the load at a CAT scale and was given a drive axel weight under the limit (62,940 pounds) on the drives. As CAT scales are the only way to weigh the loads, we proceeded with what we believed to be a legal load. Our driver passed into Florida (White Springs SB I-75), was given a drive weight of 66,280, but was not cited, nor was he told to adjust the load. The next morning, the same driver and same load went through the scales in Wildwood. He was given three different weights. I spoke with the officer who said she allowed our driver to adjust the load. On the third weigh in, the drives were legal. The driver did not fuel between these locations. How could the weights go up? Is it possible to obtain records of the scale calibrations? There are even different gross vehicle weights. We understand the fee for this is low, however, there appears to be a standardization issue. For this reason, we are requesting the citation be dropped. Thank you for your time. Danielle Peterson

Dear Members of the Commercial Motor Vehicle Review Board,

I am submitting this letter to formally protest the citation issued to our company for operating a commercial motor vehicle with an expired registration. We believe this violation was the result of an administrative error and not any negligence on our part.

On **May, 7, 2025**, our company submitted a complete request for:

- A **full one-year registration**,
- A **new license plate**, and
- All **required documents and full payment**, including all fees and taxes requested by the IRP/Tax Collector's office.

We fully complied with every requirement. However, instead of receiving the one-year registration that we applied for, we were issued a **cab card valid for only one month**. At no time were we notified of any issue with our application, missing documents, or additional payments needed.

Because the cab card was incorrectly issued for only one month, our registration expired without our knowledge, leading to the citation.

Our company maintains strict compliance with Florida commercial vehicle regulations, including:

- Current insurance
- Updated DOT credentials
- Regular safety compliance
- Timely registration submissions

We would never knowingly operate a vehicle with expired registration, and we acted in good faith at all times. The error was entirely outside of our control.

In consideration of the facts listed above, that:

- We applied for a full one-year registration,
- We provided all required documents,
- We paid all required fees,
- And we were mistakenly issued only a one-month cab card—

We respectfully request that the CMVRB **dismiss or reduce the citation**.

We have included copies of:

- Our full registration application
- The one-month cab card received
- The citation issued

We are prepared to provide any additional documents you may require.

Thank you for your time and review of this matter. We respectfully request a favorable decision based on the evidence and circumstances.

Sincerely
Deynys Gonzalez

CASE
26-01-053

This is an invalid violation. The agent mistakenly read the registration data for the vehicle, which was a new registration on 6/25/2025 and that was the start date, not the expiration date. The cab card clearly states the expiration is 3/31/2026. The registration is VALID in the state of Florida, which is where the vehicle was registered. I did notice that the plate number the inspector used on this form was DWH6064, which is not the plate for the vehicle, but the VIN was correct. They may have been confused, used the registration information for another vehicle or used the expiration for the temporary registration which was not us. Clearly a mistake on their part, as the plates on the truck and the cab card are valid until March of 2026. The height of the trailer was also not over the 14' limit, our drivers are trained to use their height sticks and measure the height of each vehicle on the trailer, it was 13'11".

REMARKS

Expired Registration:

Vehicle is a 2 axle hot shot truck with a wheelbase of 51 ft. hauling a trailer with vehicles, weighing 40,100 lbs. Vehicle is operating on a Florida registration that expired on 07/24/2025. With an expired registration the maximum weight for straight truck is 10,000 lbs. making the vehicle 30,100 lbs. overweight. Penalty assessed at $.05 per pound for a total penalty of $1,505.00.

The driver was given a "Not Apportioned for Florida Explanation".

Driver has been advised that it is a violation of Florida law to operate a commercial vehicle with an expired registration and that continued travel could result in further action from other law enforcement agencies.

Trailer hauling vehicles was at the measured highest point and the total height of the vehicle including load was at 14 ft. 5 in. (after deducting the 3 in. tolerance). Vehicle exceeds the permitted height of 14 ft by 5 in., resulting in 5 in. of violation. The penalty is assessed at $250.00 per foot or a portion of, for a total penalty of $250.00.

Violation to be corrected prior to departing with the load.

CASE
26-01-054

This letter is submitted as a formal protest and request for dismissal of the citation issued to A Pol Carriers LLC for allegedly operating a commercial vehicle without valid IRP registration. At the time of the citation, the company did possess a valid and active IRP registration with the State of Florida. The vehicle in question was properly renewed under our IRP account prior to the date of the inspection. Following receipt of the violation, our compliance department contacted the Florida Department of Highway Safety and Motor Vehicles (FLHSMV) IRP Unit to investigate the matter. We were advised by a representative that, due to a system error during the renewal process, the license plate number became deattached from the VIN in the state's system. This issue occurred internally within the IRP database and was not communicated to the company in any way — there were: No notifications in our online IRP portal, No mailed correspondence regarding any detachment or registration issue, and The company's IRP online account continued to display both the plate and registration as active. As such, our company had no reasonable way to know that a technical error had occurred within the state's system. We operated under the good-faith belief that our registration was valid and in full compliance with state and federal requirements. To support this protest, we are including: A copy of the valid IRP cab card for the registration period in question. A screenshot from the FL IRP online system showing the registration and plate as active. Given these facts, we respectfully request that this citation be dismissed and removed from the company's record, as the vehicle was properly registered and the issue was beyond the carrier's control.

To Whom it may concern. I am writing because I want to dispute a citation I received on 11/14/25. citation# 000897232. I had 15,000 lbs. on my trailer. I was told to enter weigh station. I was pulled on scale and Ms. Wilson walked outside and asked if I was 48 or 53ft. I told her 53ft. She said she had to measure. She then said can I close my tandem together I told her no it's a spread axle but I could slide the whole set up. She said if you can slide it up try that. I gave her my paperwork and she said I'll have your citation ready when I slide my tandem to make it legal. I've been running up and down the east coast for 45 years and have never been measured before. With that being said if your over weight on an axle they give you a chance to move the weight and make it legal and you do not get a citation. I feel I should not have received a citation since I corrected this problem. I feel she also rude how she talked to me. I am attaching a copy of the citation. Thanks for hearing my side.

REMARKS

King Pin Violation
Due to King Pin Setting; Over Dimensional Trailer Length: F.S. 316.515
Over length on kingpin setting greater than 41 feet. Vehicle weighs 47,720 lbs and is hauling general freight . Inspector measured a 66 feet, 5 axle truck tractor semi-trailer exceeding 48 feet in length, but not more than 57 feet and the kingpin measured more than 41 feet from the kingpin to the center of the rear rear most axle. Inspector measured a 53 foot trailer, which makes the trailer over legal length of 48 feet when not adhering to the legal 41 feet or less kingpin setting as per F.S.316.515 (3) The kingpin setting physically measured by inspector from the kingpin to the center of the axle measured at 44 foot 1 inches. The split in the rear axles measured by inspector at 10 feet 04 inches. The state mandate 3 inch tolerance still measured more than 41 feet, calculates to a penalty of $100.00 . Not on hot list. Driver advised to establish a kingpin of 41 feet or less before continuing on route or obtain a permit from the Florida permit office before proceeding on, or another citation may be issued.

Citation# 000893759

Greetings,

I am writing this letter as the Driver and Owner of SLOW POKE Express LLC DOT#4260091 regarding the fine we received at the sumner county weigh Station, on 10/21/25

At the time of the citation our vehicle was operating under a 90 day permit tag, which was obtained in illinois at time of purchase of vehicle.

on September 20th 2025 we had to do a Safety Audit via DOT, we let the Auditor know we were operating under this "special" 90 day Permit, we sent in all documents along with the Permit tag and Passed the Audit.

with me specifically asking Dealer for a tag that I can operate legally along with passing the Audit with NO issues I was under the impression I was valid until the 90 days passed.

This error was in no way me trying to cut any corners or doing something wrong intentionally. I had an IRP account along with plate, so I had it transfered over to the new truck (i will attach cab card) so now everything is corrected and up to par!

I am asking for Grace! I am asking for the fine to be dismissed, I honestly am not in position to afford it I am a new business and have been having a rough start.

I would greatly appreciat if you guys would help me out here.

Review Board,

Three of my drivers were given a citation on 08/28/2025, for not having two pilot cars' one in front and one in back. Finding a safe place to park and waiting for pilot cars is not the easiest for several oversized trailers. By the time my drivers got to the Florida state line it was the end of the day. To prevent paying an overnight fee. For several pilot cars. My drivers went to the weight station. To wait for pilot cars in the morning . Still paying several pilot cars overnight pay but saving on the second car for each driver. Plus $250 day rate for each new car and $150 over overnight pay. We were not trying to go against the laws. Just honestly thought we were in the guidelines of the law. Hopefully you will be able to see this was not done intentionally.

Thank you for time and consideration,

To whom it may concern

This letter is to inform you we would like to ask for any leniency in this matter. The truck in question was recently purchased with temporary tags issued from the state of Kansas. We were under the belief that the bank was going to process all paperwork necessary in order to be compliant. It was never our intention to operate in a non compliant manner. After learning what is necessary of us we took immediate action and will ensure it will not happen again. We appreciate your time, consideration and are highly thankful for your understanding for any forgiveness.

Truly Yours!

November 13, 2025

Attn: Florida Highway Patrol

Citation # 000894758

Good Afternoon, on 11/03/25, my husband received a ticket for not having proper paperwork, the result of a clerical issue, the last number in his VIN# was wrong. Not only was I unaware of this (providing the notification letter provided on that was sent on 11/03/25, in the afternoon, after he had already received the citation). However, the previous week I had already spoken with the Alabama Department of Revenue twice, and asked if there were any issues that needed to be resolved, are we good to run, I was told yes, that as long I printed the paperwork out, at no point was I informed that we were not able to run until the issue was corrected. However, after receiving the citation, I spoke with another agent, who informed me that because of the issue we should not have been on the road, this is something that we should have known beforehand. We are a new business, only running since May 8, 2025, so we are learning things as we go and asking as many questions as possible.

With this being said, she corrected the VIN # in the system and I was able to print out the correct paperwork, pick up the IFTA stickers the very next morning and we had our apportions tag the next day. We make every effort to be compliant with the laws, we recently had our very first DOT Audit and came through it with only one recommendation, so we are doing our best to do what is required.

With this being said, we are asking for your mercy pertaining to the price of the citation, as a small business, every dollar counts and on top of it all I am a cancer patient who is currently undergoing chemo, so there are days that I am not at my best, we await your decision.

Dear Sir or Madam,

I am writing to respectfully request a review and dismissal of the citation I received at the Florida weigh station.

At the time of the stop, I was driving a newly purchased 2023 Freightliner truck with a valid 30-day temporary tag issued by the dealer in Alabama. I was transporting no load and was not pulling a trailer — only the tractor itself. However, I was still cited for being overweight.

Since then, I have completed the full registration of the truck in Florida. I am attaching copies of the Florida registration, the title, and the temporary tag issued by the dealer for your reference.

I work very hard to support my family, and receiving this citation has created an unexpected financial burden. I kindly and respectfully ask for your consideration in dismissing this citation.

Thank you very much for your time and understanding. Please let me know if you need any additional information.

The facts set forth in this document are true and correct to the best knowledge and belief of the below-signed seller and purchaser or purchaser's agent. The automobile, motorcycle, truck, truck trailer, semitrailer, travel trailer, camper, or housecar referenced above will be exported or removed by the purchaser or purchaser's agent from Alabama within 72 hours from the time of sale to the State of FL for first use and registration or titling in accordance with the laws of that state. In order to qualify as a travel trailer, camper, or housecar that will be registered or titled for use in another state, the purchaser must provide documentation of a valid state-issued identification card, state-issued driver's license, or U.S. passport, or for entities, a copy of the same for the individual signing for the purchase. Therefore, the seller's record requirements for such a sale will include maintaining a valid copy of the documentation with the Form DOC-1 and the bill of sale to substantiate the tax-exempt sale. If the state in which the nonresident will title and register the vehicle does not allow an Alabama resident to purchase a motor vehicle for first titling and registration in Alabama without the payment of tax to that state, the sale does not qualify for the drive-out provision. In these instances, the seller must collect the two percent (2%) Alabama state sales tax, not to exceed the amount of sales tax that would otherwise have been due in the state where the vehicle will be registered or titled for first use.

Good afternoon,

I am writing in concern of said citation #000894639. It was given, stating that our Inner Bridge is in violation.
Per the citation, our 6 axle measuring at 43' is over limit. Per citation limit is 75,000 lbs.
However, by Inner Bridge standard and all charts, I have found that a 6 axle vehicle measuring 43' is allowed up to 88,000 lbs. I have attached all charts stating so.
Furthermore, Citation also states (NO TRAVEL PERMITTED ON THE INTERSTATE SYSTEM). However, our inner bridge permit is so that we may travel on the interstate. Please verify.

I have attached the following:
Citation
Inner Bridge Chart

I ask for this citation to be reviewed and dismissed based on the information provided.

Kind Regards,

Christine Mendoza

Subject: Formal Protest – Citation No. 000895740

To Whom It May Concern,

I am writing on behalf of CloudTrucks LLC to formally protest the issuance of IFTA-related citation number 000895740 to our driver, Stephen West, on November 4, 2025. This citation was issued for alleged operation without a valid IFTA permit; however, our records and supporting documentation confirm that the driver was operating under a valid California-issued Temporary IFTA Decal Permit, which was fully compliant and in effect on the date of the stop. This driver also had his IFTA license on hand during the stop as well.

The attached IFTA Temporary Permit (License # CA84191585800) is valid from October 7, 2025 through November 5, 2025, and authorizes operations in all IFTA member jurisdictions, including Florida. The permit clearly lists the VIN and license plate of the vehicle in question, matching those identified in the citation.

This driver was newly onboarded with CloudTrucks on October 14, 2025, and per our protocol, was issued a temporary IFTA permit to allow operations while awaiting decal shipment. The vehicle was therefore properly licensed and in compliance with IFTA operating requirements at the time of the inspection.

Given this, we respectfully request that citation number 000881550 be reviewed and dismissed. We have included the following supporting documentation:

- Copy of the citation

- Temporary IFTA Permit
- Driver onboarding confirmation (if needed upon request)

Please confirm receipt of this protest and advise if any additional information is needed to complete the review.

Sincerely,
Katie Warren

CDTFA-442-T REV. 7 (1-25)

J257LJ4106

This *International Fuel Tax Agreement (IFTA) Temporary Decal Permit* is issued by the California Department of Tax and Fee Administration (CDTFA) under the terms of the International Fuel Tax Agreement (IFTA). This permit authorizes the licensee to operate the specified vehicle in all IFTA member jurisdictions. The permit is valid for a maximum period of 30 days and expires on the expiration date noted on the permit.

A valid CDTFA-442-IFTA, *International Fuel Tax Agreement (IFTA) License*, must be carried in the cab of the vehicle along with this CDTFA-442-T, *International Fuel Tax Agreement (IFTA) Temporary Decal Permit.* If you do not produce both credentials, it may result in the requirement to purchase a fuel trip permit, or imposition of a fine or penalty, issuance of a citation, and/or possible seizure of the vehicle. The vehicle will not be released until all tax, penalty, interest, and costs incurred in connection with the impound and storage of the vehicle are paid.

This *International Fuel Tax Agreement (IFTA) Temporary Decal Permit* is in lieu of the IFTA decals and allows this vehicle to be placed into service immediately. Miles operated and fuel consumed while using this temporary decal permit must be reported on your *IFTA Quarterly Fuel Use Tax Return.*

This permit is valid only if issued by CDTFA. Any agent or other person who alters or otherwise produces unauthorized fuel tax credentials is creating fraudulent documents, the use of which may result in civil liability, criminal prosecution, or revocation of the license.

CDTFA-442-IFTA REV. 7 (8-19) **A COPY OF THIS LICENSE MUST APPEAR IN EACH MOTOR VEHICLE**

This license, or an exact copy of this license, must be carried in the cab of each qualified motor vehicle registered under the California International Fuel Tax Agreement (IFTA) program. Along with this license, each vehicle must display one set of valid California IFTA decals on the exterior portion of the truck's cab; one decal on each side. In lieu of the IFTA decals, a valid CDTFA-442-T, *IFTA Temporary Decal Permit*, may be carried in the cab of the vehicle.

If you do not carry a copy of the IFTA license or do not display the IFTA decals in the required locations on the vehicle(s) (or carry in the cab a valid *California IFTA Temporary Decal Permit*), it will subject the vehicle operator to the requirement to purchase a fuel trip permit, issuance of a citation and/or imposition of a fine, and possible seizure and sale of the vehicle.

As a holder of this license, you accept certain responsibilities. You must keep adequate records that document the amount of fuel purchased, used, or stored; the amount of fuel tax paid; any fuel use that is exempt from tax; and the number of miles your qualified motor vehicle(s) operated in all IFTA and non-IFTA jurisdictions. Generally, you must keep records for four years.

You must file an IFTA Quarterly Fuel Use Tax Return no later than the last day of the month following the quarterly reporting period. You must file your quarterly return even if you did not purchase any fuel or operate your vehicle(s) in any IFTA jurisdiction during the reporting period. To file your return, please visit our website.

Your license is valid only for the entity named and type of ownership specified (for example, sole proprietorship, corporation, partnership, limited liability company, etc.). You should notify the California Department of Tax and Fee Administration (CDTFA) immediately if you make ownership changes, sell your business, stop operating, or otherwise close your California IFTA license account. Upon closure of your account, you must destroy this license, all copies, and remove all related decals issued by the CDTFA from your vehicle(s).

This license is valid only if issued by the CDTFA. Any agent or other person who alters or otherwise produces unauthorized fuel tax credentials is creating fraudulent documents, the use of which may result in civil liability, criminal prosecution, or revocation of the license.

Good morning,

We are writing to address the Citation 000887140 issued on 11/07/2025.

We believe the citation for being overweight (17,720 lbs) was issued in error. The total weight of our truck was 27,720 lbs, and the legal gross weight limit for this vehicle is 26,000 lbs. Therefore, the actual overweight violation should be for 1,720 lbs.

Please also note that the attached driver's license for Christopher Malik Culbreath permits him to operate vehicles up to 26,000 lbs gross weight.

Furthermore, regarding the Fuel Tax requirement, we believe we are exempt as we operate two-axle trucks with a gross vehicle weight under 26,000 lbs.

We would appreciate it if you could review this information and amend the citation accordingly.

Attached is the DOT report along with citation and driver's license, please let me know if you need any additional information.

Thank you for your time and attention to this matter.

Sincerely,

M&S POWER

To Whom It May Concern,

I hope this letter finds you well. I am writing to respectfully contest the citation issued to me for failing to display the required number of flags on my oversized load. The citation, issued on 11/3/2025 states that I did not display the required eight flags on my commercial vehicle, while I had four flags properly displayed

I would like to clarify that I did indeed make a good faith effort to comply with the regulations by placing four flags on the load, as I believed that this was the correct number based on my understanding of the rules. Unfortunately, I was

unaware that the specific requirement for oversized loads in this area is eight flags, rather than four. This was a genuine misunderstanding on my part, and I take full responsibility for not double-checking the exact requirements before transporting the load.

I want to emphasize that my oversight was unintentional, and at no point was I trying to circumvent safety or regulatory rules. I fully recognize the importance of ensuring that oversized loads are clearly marked for safety reasons, and I always strive to adhere to regulations. Since receiving the citation, l have made sure to review the regulations more thoroughly to prevent this situation from happening again in the future.

In light of these circumstances, I respectfully request that you reconsider the citation or possibly reduce the fine, given that this was an honest mistake without any intention to disregard the law. I would greatly appreciate your understanding and

any leniency you might be able to extend in this case.

Thank you for your time and consideration. Please let me know if you require any further information or documentation from my end.

Sincerely,

Michael Rosario

Vehicle Information-3C63RRGL2NG139838/Tag#ELZ463

I'm protesting citation number 000892018. I was charged with an overweight violation which had a total weight of 28,080. I'm legally permitted to carry 36,000 pounds with a CDL license according to the FMSCA. Georgia's weight statutes for dually trucks are governed by O.C.G.A. § 32-6-26, which sets a Gross Vehicle Weight Rating (GVWR) of no more than 80,000 pounds for commercial vehicles. The load must also comply with specific per-axle limits, with 20,340 pounds allowed on a single axle and 34,000 pounds on a tandem axle (two axles). These limits apply to both the vehicle and its cargo, and exceeding them requires a special permit.

I am seeking that this violation is dismissed due to error.

RE: Citation #000892850

Dear Review Board,

I am writing to protest citation # 000892850 received on 11/17/2025. The citation states:

"Operating in interstate commerce between Milton, FL and Loxley, AL. CMV does not display an IFTA sticker nor does the driver have an IFTA permit."

Wilson Lumber Company is a Florida based company with Florida tag and DOT # 816701. We primarily operate intrastate. Occasionally we travel to Alabama. When we travel to Alabama we purchase a "Fuel and Trip Permit" from the Alabama Department of Revenue to satisfy their laws. We had an Alabama Fuel and Trip permit at the time of citation.

It is my understanding that as a Florida based carrier, we are not required to purchase a Florida Trip permit nor have IFTA decal. The FLHSMV.gov website states:

"Florida-based carriers who need to travel in another jurisdiction(s) with an apportionable vehicle that does not currently have a Florida IRP registration must obtain a temporary trip permit and temporary fuel permit from each of the jurisdictions in which they plan to travel."

Enclosed you will find a copy of the citation, a copy of the Alabama Trip Permit, a copy of the paid receipt for the citation and the information from the FLHSMV.gov website. Please review the information provided. I am requesting a refund of the fee and penalty of $95.00 assessed and paid. I appreciate your time reviewing this matter.

Thank you,

REMARKS

CMV is a 3-axle straight truck operating in interstate commerce between Milton, FL and Loxley, AL, laden with mulch having a GVWR of 64,000 lbs. The CMV does not display and IFTA sticker nor does the driver have an IFTA permit. The driver was asked for these items, and he was unable to produce them. The driver called the owner and the owner advised me to issue him the citation for the IFTA permit. This is a violation of 49 CFR and FSS and the carrier is assessed a $50 penalty and a $45 fee for the issuance of the 10 day IFTA permit.

Total assessed penalties and fee to the carrier $95.00

Good afternoon my name is Anso Meauville. I received this citation # 000884419 because I was driving a new bought truck with a temporary 60 days tag. The only reason I was driving that day was because I had an appointment at the lake park Ga Travel America for service while I was waiting for the new IRP tag. The FHP stop me at the Agricultural station told me the temporary tag was not issued by Florida State . I don't understand why I have a valid 60 days temporary tag . I could drive the truck for service while the tag is still legal. And also he was requested my Ifta which I handed to him after but still cite me for it. I don't think that was a good reason for him to cite me that amount of money I see on the paper the tag was valid. Please I would love to get help with this matter.

Thank you for your time

HSMV 85003 (Rev. 01/19)

THIS COMMERCIAL LOAN AND SECURITY AGREEMENT (EQUIPMENT) (this "Agreement") is made as of AUGUST 27, 20 25 (the "Effective Date"), by and between AJMICHEL CORPORATION INC, a FLORIDA CORPORATION with a principal office located at 1974 W 16TH COURT, RIVIERA BEACH, FL 33404 ("Borrower") and Amerisource Equipment Finance, a division of Amerisource Funding, Inc. ("Amerisource") (each a "Party" and, collectively herein, the "Parties"). All capitalized terms not herein defined shall have the meaning set forth in the Uniform Commercial Code as adopted in the State of Texas (the "UCC").

RECITALS

WHEREAS, Borrower has asked Amerisource to extend financial accommodations to Borrower consisting of the "Loan Amount" as set forth on Annex A (the "Loan") to purchase the equipment identified on Annex A (the "Equipment") from MHC OZARK KENWORTH LLC (the "Seller") and;

WHEREAS, Amerisource is willing, on the terms and subject to the conditions set forth in this Agreement and to extend Borrower the Loan for the Equipment secured by the assets of Borrower as set forth herein;

NOW, THEREFORE, in consideration of the foregoing, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, the Parties hereto covenant and agree as follows:

AGREEMENT

1. LOAN: Amerisource agrees to make the Loan to Borrower under the terms and conditions herein. Borrower irrevocably authorizes Amerisource to disburse the Loan proceeds: (a) directly to Seller in payment of the Equipment, and (b) directly to insurers, warrantors or other third parties to satisfy any conditions of funding the Loan and/or to discharge existing or potential liens, claims or other encumbrances on the Equipment or other Collateral. In the event Borrower has not received all approvals and satisfied all conditions for the sale of the Equipment to Borrower within fourteen (14) days of the Effective Date, Amerisource may require updated financial and credit information and/or terminate this Agreement without funding the Loan, all in its sole discretion. In the event Amerisource is financing a portion of Borrower's down payment for the Equipment financing (the "Deferred Down Payment"), such amount and terms are set forth in Annex A. In the event Borrower is required to have a warranty as a condition of the Loan (the "Warranty"), the terms and conditions of the Warranty are set forth in Annex B. Any Deferred Down Payment and Warranty shall be included in the Loan Amount.

2. PAYMENTS: Borrower shall pay to Amerisource the Loan Amount, all interest, fees and expenses, and all present or future obligations, liabilities or indebtedness of Borrower to Amerisource arising hereunder or otherwise, of any and every kind and nature, however created, arising or evidenced and howsoever owned, held or acquired, direct or indirect and whether arising or existing under written amendments or by operation of law, and including all future advances made by Amerisource for the potential protection of Amerisource's rights and interest in the Collateral, to pay or discharge existing or potential liens, levies or other claims against the Collateral, and whether arising before, during or after the commencement of any bankruptcy case in which Borrower is a Debtor, and all costs and expenses, including without limitation reasonable attorney's expenses, incurred by Amerisource in connection with or arising out of the administration, protection, enforcement or collection of the obligations or disposition, liquidation or realization of the Collateral, and expenses incurred in any legal issues involving Borrower (the "Obligations"). The Loan and interest shall be paid in equal monthly installment payments to Amerisource in the amount set forth in Annex A and as provided for herein. All payments shall be applied at the option of Amerisource and may be applied first to accrued and unpaid Interest, second to unpaid fees and other charges, and last to the outstanding principal balance. Any requests for deferred payments shall be approved or denied in the sole discretion of Amerisource and is subject to additional charges and a written amendment to the terms of this Agreement. Any unpaid fees, expenses or reimbursements owing by Borrower to Amerisource shall be applied to the principal balance of the Loan when earned.

3. INTERESTS; DEFAULT INTEREST: The Loan shall bear interest at the Interest Rate, which shall be calculated and assessed monthly and paid by Borrower. Accrued interest shall be added to the principal balance of the Loan when earned and shall be included in the Obligations. Upon an Event of Default, the outstanding balance of the Loan shall bear interest at the Interest Rate plus ten percent (10%) per annum (the "Default Interest") or such lesser rate as is required by applicable law. Notwithstanding any other provision of this Agreement, any interest or Default Interest under this Agreement shall not exceed the maximum rate permitted by law; and if any amount paid under this Agreement as Interest is in excess of such maximum rate, then the amount so paid will not constitute interest but will constitute a prepayment on account of the principal amount of the Loan. In the event the Interest Rate is a floating rate, the prime rate shall be determined and updated as published from time to time in the Wall Street Journal, but in no event shall it be less than 5.50% per annum (the "Floor").

4. LATE PAYMENTS: A late charge equal to fifteen (15%) of any overdue payment amount shall be charged for each payment not paid within five (5) days of its due date. This late charge may be added to the principal balance of the Loan when earned. Any payment due from Borrower to Amerisource not paid within five (5) days of its due date shall be considered an Event of Default (hereinafter defined), and the entire unpaid balance of the Loan due hereunder and all Obligations shall become subject to the De

or otherwise related to this Agreement shall be the state or federal courts located in Harris County, Texas. Borrower hereby waives any right to challenge or object to personal jurisdiction or venue in such courts. Borrower further expressly waives any right to bring suit against Amerisource in any other jurisdiction and, should it do so, consents to the immediate transfer of such action to the state or federal courts of Harris County, Texas. Notwithstanding the foregoing, the Parties agree that Amerisource, at its sole and exclusive option, may choose to exercise any right it may have against Borrower by filing suit in any other court having jurisdiction over Borrower or the Collateral, or in which Amerisource shall deem appropriate to protect Amerisource's interest in the Collateral. The Parties hereby waive any objection which either may have based upon the lack of personal jurisdiction or venue and hereby consent to the granting of such legal or equitable relief as deemed appropriate by any such court. Borrower hereby waives personal service of any summons or complaint or other process or papers to be issued in any action or proceeding and hereby agrees that service of such summons or complaint or process may be made by registered or certified mail to Borrower's address. I am writing to respectfully request the cancellation or reduction of the fine I received for driving in a restricted area without the necessary permit.

On the date of the violation, I made several attempts to obtain the required permit through the online system, as I was fully aware of the regulations. Unfortunately, the system repeatedly failed to process my request, showing an error message and preventing me from completing the application. Despite my efforts, I was unable to obtain the permit in time.

I understand the importance of complying with traffic regulations, and I would not have knowingly violated the rules. Given the circumstances, I kindly request the court to consider either canceling the fine or, if that is not possible, reducing the amount to be paid, taking into account the technical difficulties I faced in obtaining the necessary permit.

I sincerely hope for a fair and understanding review of my situation. Thank you for your time and consideration.

Yours faithfully,

CASE
26-01-075

Good afternoon,

I am contacting you regarding citation number 000898706, issued on 11-19-25 at 11:17 a.m., for an alleged violation related to the weight of a truck and trailer combination and the requirement for a special commercial license.

We respectfully request a review and dismissal of this citation, as the violation is based on incorrect information.

The officer indicated that a special license is required only if the combined vehicle weight exceeds 26,000 lbs. However, the official documentation attached shows the following:

- Truck weight: 7,964 lbs (per registration)
- Trailer weight: 4,230 lbs (per registration)
- Total combined weight: 12,194 lbs

This total is well below the 26,000-lb threshold that would trigger the requirement for a special license.

In addition, we are including the certified scale ticket from the Charlotte County landfill, where the vehicle was weighed on 11-19-25 at 10:27 a.m., just 50 minutes before the citation was issued, confirming the accuracy of the vehicle weight on the same day of the stop.

To support this appeal, we are attaching:

1. Copy of the citation
2. Vehicle registration (truck)
3. Trailer registration
4. Certified landfill scale ticket from 11-19-25

Based on this documentation, we respectfully request that citation 000898706 be dismissed, as the vehicle was fully compliant with Florida weight regulations at the time of the stop.

Thank you for your time and attention to this matter. We kindly request written confirmation once the citation has been cleared.

Sincerely,

Anabel Hernandez (Off. Manager)

CASE
26-01-076

Good Day, I, Scotty Tunstall is protesting this citation on the bases that I was less than 4 hours from my home base to take care of my registration. When I was cited for this ticket at a scale house. The reason I did not make back in time is because I was delayed getting unloaded. Also I had to follow the law of a 10 hour break on my ELD device. My company and I try our best to follow all the rules on the road. I apologize not making it back in time to get my registration updated on October 31 on a Friday. I was cited on Nov. 1. But I did get it updated the next business day the DMV was open. The fine was cited, I think was very excessively high for this. For just a couple of hours over on the day cited. I was on my way to take care of the issue. I was just following the FMCSA law when I took my 10 hour break the way i was supposed to do. I pray I can find mercy i need from the court on this citation. Thanks, Scotty Tunstall

REMARKS

61 foot 5 axle truck tractor semi-trailer out of Alabama with an expired apportioned registration (10/31/2025) . The registration is expired less than 90 days

I did confirm the vehicle's VIN # 1FUJGLBG0ELFR9575 . I ran the vehicle's VIN #1FUJGLBG0ELFR9575 through the Smart Cop system and was able to confirm that the registration is expired

The laden vehicle weighed in at 71,820 pounds, took the vehicle's weight back to 35,000 pounds as per F.S. 316.545 (2)(b), which made the vehicle 36,820 pounds overweight at .05 cents per pound = $ 1,841.00 . With the registration being expired less than 90 days, the penalty is capped at $ 1000.00

I did advise the driver that it is unlawful to drive on the Florida highway system with out a proper registration

I did give the driver a letter of explanation for F.S. 316.545, fro having an expired registration in the State of Florida

Total amount due = $ 1000.00

I INITIATED A TRAFFIC STOP ON I-10 W/B MM262 EXIT RAMP AND HAD THE DRIVER MOVE ONTO CR-255 S/B UNDER THE OVERPASS IN THE SHADE. DURING MY INSPECTION OF THE DRIVER CREDENTIALS AND VEHICLE DOCUMENTS IT WAS DISSCOVERED THAT THE TRUCK-TRACTOR HAD AN EXPIRED ALABAMA APPORTIONED REGISTRATION TAG # 1198178 ISSUED TO VEHICLE IDENTIFICATION NUMBER:1XPXD49X0ND782146 THAT HAD EXPIRED 07/31/23. DISPATCH INFORMED ME THAT THERE WAS NO CURRENT REGISTRATION FOUND THROUGH ALL 50 STATES FOR THIS TRUCK-TRACTOR. THE CMV COMBINATION WAS WEIGHED AT JIMMIES TRUCK STOP CAT SCALE AT 84640 LBS. THE LADEN CMV COMBINATION WAS PENALIZED IN ACCORDANCE WITH F.S.S.316.545(2)(B) FOR EVERYTHING ABOVE 35000 LBS AT FIVE CENTS PER POUND.

THE DRIVER WAS INSTRUCTED TO GET VALID REGISTRATION IF HE WANTS TO CONTINUE TO DESTINATION OR TAKE THE LOAD OF LIVESTOCK CATTLE TO POINT OF LOADING IN CHIEFLAND FLORIDA FOR THE SAFETY AND WELLBEING OF THE LIVESTOCK. ONCE THE LIVESTOCK IS OFF-LOADED THE TRUCK HAS TO BE PARKED AND REGISTERED BEFORE OPERATING ON FLORIDA ROADWAYS/HIGHWAYS.

We received the above numbered Citation on 10-21-25 at the White Springs Weigh Station on I-75, for over on permitted load axle configurations and gross weight. Our driver weighed the load right after loading at the Loves Truck Stop on I-24 in Christiana Tn. On 10-20-25. (Cat Scale Weights included). The truck was fueled at the Truck Stop before weighing, and fueled again in South Georgia. The permit was purchased for weights showing on Scale Ticket. The truck was pretty well full of fuel when crossing the Florida weigh station. The driver was told that he was over on axle configuration 1-2-3-5 and gross. We were cited and told to purchase new permit (included also). The driver showed the Cat Scale Ticket to the officer. Cat Scales assured us that their scales had recently been certified. We are asking for you to look at the trucks scale ticket from TN and the Florida Permit. We did not have any problem in Georgia. Any consideration in this appeal would be greatly appreciated.

To Whom it my concern,

We (Commercial Relocation Group, Inc) are protesting citation number 000893871 that our driver received on 11/5/25 in regard to our driver needing both a medical card and a CDL license to drive the 2012 International truck VIN# 1HTMMAANXCJ597164. When we bought the truck in 2017 we received the letter attached that states the GVW was re-rated to 25,999 pounds. We would like you to look this over and dismiss the violations for 391.41-N and 383.23(a). I can be reached at either email address (craig_dunn@commercialrelocationgroup.com) or phone number (954-288-2766).

We have replaced the fire extinguisher with a new one and have put decals on the doors with our name (instead of magnetic ones that we had- guess they blew off).

Thank you,

Gross Vehicle Weight Rating Letter

GVWR

NUTMEG INT'L TRKS INC
130 BRAINARD RD
HARTFORD, CT 06114
To Whom It May Concern,

While it remains Navistar, Inc.'s opinion that our products should be ordered with the correct gross vehicle weight rating from the factory, we understand that this cannot always be accomplished.

Upon review of the specifications for VIN 1HTMMAANXCJ597164, as built, Navistar Inc. approves a GVWR rerate to 25,999 lbs from the factory rating of 32,000 lbs. This vehicle's frame, brakes, steering, axles, wheels, tires, and suspension systems are capable of the change, and approved for NUTMEG INT'L TRKS INC to rerate the GVWR to 25,999 lbs.

NUTMEG INT'L TRKS INC is responsible for ensuring compliance and certification to all Federal, State, and Provincial requirements, as well as industry standards and recommended practices.

For Labeling the Vehicle, it's the responsibility of the entity doing the vehicle modification or alteration to make sure the vehicle is properly labeled. Navistar cannot provide labels with different ratings or information other than what was originally on the labels at the time the vehicle was built by Navistar.

To document a GAWR/GVWR change:

For incomplete vehicles, the body builder/final-stage manufacturer can use the information on the Incomplete Vehicle Document and the Re-Rate Approval Letter to complete the vehicle certification label with the new ratings. A blank certification label is available for purchase via Service Parts. 436076C4 (US),1698980C2 (Canada)

For complete vehicles with a certification label, retain the Re-Rate Approval letter and use it to complete an alterer's label. A blank alterer's label is available for purchase via Service Parts. 449893C5 (US), 1676840C3 (Canada)

Commercial Motor Vehicle Review Board

605 Suwanee Street, MS 90

RE: Appeal of Citation No.: 00893681

To whom it may concern:

I am writing to formally appeal the citation issued on October 18th. 2025 to Danyjeny Transport LLC/Jose Diaz (Owner Operator), involving the commercial motor vehicle identified as a 2020 Kenworth T68 VIN: 1XKYDP9X5LJ352655. The vehicle in question had been purchased on October 15th, 2025 from Texas Truck Sales in East Houston, Texas and was in the process of being transported back to the state of Florida at the time the citation was issued.

At the time of transport, the truck was not yet placed into commercial service, nor was it being operated for the purpose of hauling cargo or conducting any revenue generating activity. Its sole purpose for being on the roadway was relocation to Florida following its purchase and for processing of proper documentation. Because the vehicle was not yet active in commercial operations, we respectfully contend that the citation issued under commercial motor vehicle record regulations does not accurately apply to the circumstances.

We request the Commercial Motor Vehicle Review Board review the detail surrounding this case, including documentation verifying a recent purchase in Texas and a transport back to Florida incliding the appropriate documentation of where transfers were completed. These records demonstrate that the vehicle had not yet been placed into service and should not fall under the cited regulatory requirements at that time. For your review I have ***included the*** following supporting documents:

*Buyers Plate Receipt reflecting the Date of Sale;
*Bill of Sale;
*Florida Department of Safety and Motor Vehicles Apportioned Cab Card reflecting the date the vehicle was put into service;
*Form 2290 reflecting the change of the vehicle from the replaced truck

*Certificate of Insurance reflecting the date that the Liability and Cargo insurance were transferred to the new vehicle;

I respectfully request that the board reconsider the citation based on this information and grant relief accordingly. Thank you for your time and attention to this appeal.

Please feel free to contact me at (786)587-3791 or email me at Danyjenytransport@outlook.com, if additional information is required.

Sincerely,

Eileen P. Suarez

This license is issued under the terms of the INTERNATIONAL FUEL TAX AGREEMENT (IFTA) and is valid for vehicles operated by the registrant name in all IFTA jurisdictions.

The Alabama IFTA license and decals serve as proof that you have been registered under the IFTA provisions with the state of Alabama. **This license may be shown to law enforcement as an electronic image on a computer, tablet, smart phone or as a paper copy and must be provided in each IFTA qualified vehicle.** This license is not transferrable between carriers. Each qualified motor vehicle will be issues two fuel decals. One decal must be placed on the exterior portion of both the passenger and driver side of each vehicle. Failure to display the fuel decals in the required location may result in the issuance of a citation and/or additional fuel purchase requirements.

In accordance with Alabama Department of Revenue Administrative Rule 810-5-9-.10, IFTA Quarterly Fuel Tax Returns, you are required to electronically file an International Fuel Tax Agreement (IFTA) quarterly fuel use tax return. **A tax return must be filed even if you do not operate during the reporting period.** You are required to maintain mileage, fuel, and bulk storage records to support the information reported. You must retain these records and copies of the tax returns for a period of four years from the due date of the return or the date the return was filed, whichever is later. You may cancel the IFTA account by submitting a written request for cancellation. The department will cancel the account provided no liabilities or delinquent returns are outstanding. Please include your client ID on all correspondence forwarded to the Motor Vehicle Division.

Carriers renewing their IFTA license and decals have a two-month grace period (January and February) to display the renewal IFTA license and decals. To operate in IFTA jurisdictions during this grace period, carriers must display either current or prior year IFTA license and decals from the jurisdiction in which they were operating or a valid single trip permit from the IFTA jurisdiction in which they are operating. If you have any questions regarding IFTA requirements, Call (334) 242-9000, Option 5.

I AM DANIEL J. WESTFALL DBA WESTFALL TRANSPORT. I OPERATE A 2021 RAM 3500 PICK UP WITH A 40'GOOSENECK TRAILER IN FLORIDA ONLY.I HAUL EMPTY SHIPPING CONTAINERS.MY TRUCK WAS IN THE SHOP, SO I RENTED A TRUCK FROM ENTERPRISE TRUCK RENTAL TO BE ABLE TO CONTINUE PERFORMING MY WORK.I INFORMED THEM OF THE TRUCK I NEEDED TO DO THE TYPE OF WORK I DO. I HAVE RENTED TRUCKS FROM THEM IN THE PAST AND NEVER ENCOUNTERED ANY ISSUES. THIS PARTICULAR TIME THE TRUCK HAPPENED TO HAVE NC TAGS AND DOT NUMBERS ON THE SIDE OF IT, SO I JUST ASSUMED EVERYTHING WAS OK. I WAS STOPPED IN THE PUNTA GORDA SCALE HOUSE AND WAS GIVEN THIS CITATION. I THOUGHT I WAS BEING GIVEN A TICKET FOR BEING OVER 26000 LBS. I DIDNT REALIZE THAT ANYTHING WAS WRONG , BUT I GUESS BECAUSE MY TRUCK IS REGISTERED UNDER 8000 GROSS LBS.,THAT THIS TRUCK WAS ANY DIFFERENT. I NEVER REALIZED THAT THIS PARTICULAR TRUCK ALSO JUST HAD NC TAGS AND NOT APPORTIONED TAGS. I TRIED TO EXPLAIN IT AS BEST AS I COULD TO ENTERPRISE, BUT THEY CANT UNDERSTAND THE CITATION EITHER.THEY JUST SAID THEIR TRUCKS GO ALL OVER THE US AND HAVE NEVER HAD A PROBLEM. THEY ACTED LIKE THEY DIDNT EVEN KNOW ANYTHING ABOUT REGULAR TAGS AND APPORTIONED TAGS. AND I GUESS I JUST ASSUMED THAT RENTING THROUGH THEM , THAT EVERYTHING WAS LEGAL AND AS SHOULD BE. I KNOW THAT IT IS MY RESPONSIBILITY TO KNOW THE LAWS AND REGULATIONS , BUT I JUST FEEL IT SHOULD BE ON THE RENTAL COMPANY AS MUCH AS ON ME. IM JUST ASKING FOR FORGIVENESS IN THIS CASE AND I WILL TAKE BETTER NOTICE OF THE REGISTRATION IN ANY FUTURE TRUCK RENTAL SITUATIONS.

THANK YOU FOR TAKING THE TIME TO REVIE THIS CASE. DANIEL J. WESTFALL

Re: Citation Number: 000890304

To Whom It May Concern:

I respectfully appeal the above-referenced weight station citation. I request review of the citation based on the following facts and supporting documentation.

- At approximately 1:03:10 AM on October 3, 2025, the cited vehicle was weighed at 111S I-95, Flagler Beach, Flagler County, Florida. The citation alleges the vehicle was 16,620 lbs. overweight and a fine was assessed in the amount of $831.00.

- My vehicle was checked at multiple weight stations across several states: one in Virginia, one in North Carolina, two in Georgia and two in Florida prior to the Flagler County location. Prior to being checked at the Flagler Beach location, I successfully passed at each station without any indication of exceeding the legal weight limit.

- The scale may not have been properly certified and/or maintained.

I have included a copy of the following documentation:

- Certified weight ticket

- Photographs of load

- Inspection records

3728 Cricket Avenue | District Heights, MD 20747
(202) 704-7123 | williams.barry1967@gmail.com

Based on the foregoing and the attached evidence, I respectfully request dismissal of the citation and production of any weight station scale calibration/certification records used to determine the violation.

Please contact me on (202) 704-7123 to confirm receipt or request further documentation.

Sincerely,

Barry J. Williams

Commercial Motor Vehicle Review Board

Florida Department of Transportation

605 Suwanee St MS 90

Tallahassee, FL 32399

Re: Citation # 897450

Dear Review Board,

I am protesting ticket 00897450 as this vehicle is registered at 19,500 with a wrecker tag, which does not require a CDL. This is a wrecker, and it was towing a 2017 Ford E350 van, that the officer listed as the Trailer on the citation. This made it look like it was on a trailer, the vin number 1FDEE3FS4HDC75789 is the same on the tow bill as the trailer listed on the citation, it was on the flat bed of the wrecker. The wrecker tag exempts it from being overweight, which the officer wrote up as both the GVW of both the wrecker and the towed vehicle to make this over GVW of 26001 lbs. which require a CDL. Light duty tow truck operators are exempt from needing a Medical Card in the State of Florida. So, both violations should be voided and a refund of the $200.00 should be given.

I am enclosing a copy of the inspection, the tow bill with the vehicle information that was towed, a copy of the Florida Vehicle Record on the wrecker and the copy of the Ticket for your review.

This is the second time Officer Robinson has written up this type of citation by putting the towed vehicle as the trailer.

Your cooperation in this matter is appreciated.

Thank You,

Catherine Pouliot

Subject: Payment of Citation – Citation Number 000892644

To whom it may concern:

I am writing to inform you that I am submitting the payment corresponding to Citation Number 000892644, issued on 10/05/2025, which I acknowledge and am complying with according to the established procedures.

I would like to respectfully offer a brief explanation of the events. On the day of the infraction, I was operating a commercial vehicle (car hauler) with cargo, and due to a moment of distraction, I failed to enter the weigh station. This was not intentional, and I fully understand the importance of complying with these requirements to ensure roadway safety.

Regarding the section of the report indicating that I failed the English language test, I would like to clarify that the officer spoke very quickly and the situation caused me stress. I do understand English; however, in that moment, I had difficulty responding clearly due to nerves. This was not a lack of cooperation but rather a momentary issue under pressure.

I appreciate the work and responsibility of the Florida Highway Patrol, and I assure you that I will be especially attentive to avoid any similar mistake in the future.

Thank you for your time and for allowing me to provide this explanation.

Sincerely, Ariel Santos Dita

REMARKS

THIS DRIVER UTILIZED A HEADSET DURING THE FIRST INSPECTION ON TODAY'S DATE. THEREFORE WAS ABLE TO ANSWER SOME OF THE INITIAL QUESTIONS ON FIRST CONTACT WITH DRIVER. VEHICLE AND DRIVER HAD SEVERAL VIOLATION AND WAS PLACED OUT OF SERVICE AND EXPLAINED HE NEEDED TO OBTAIN A MECHANIC AND OR HAVE THE VEHICLE TOWED. DRIVER WAS SHOWN HOW AND WHERE THE REPAIRER SIGNATURE LINE WAS AND ALSO GIVEN A SPAINISH OOS ORDER JUST TO ASSIST WITH ANY POSSIBLE LANGUAGE BARRIER.

THIS INSPECTOR TRAVELED APPROXIMATELY 3.5 MILES NORTH AND TO THE EAST OF WHERE THE DRIVER AND VEHICLE WERE PLACED OOS. I WENT TO SHANDS PIER ROAD AND TURNED AROUND, AS I UTILIZE THIS SIDE ROAD FOR CMV'S TRAVELING ON SR 16 AND THE SHANDS BRIDGE. THE SHANDS BRIDGE IS A WEIGHT RESTRICTED BRIDGE THEREFORE WE WORK THIS AREA OFTEN. AFTER TURNING AROUND AND COMING BACK SOUTH TOWARDS SR 16 THE ABOVE LISTED TRUCK AND DRIVER HAD JUST DUMPED THE LOAD HE WAS LADEN WITH AND PULLED BACK WEST ON TO SR 16. THE VEHICLE WAS APPROACHING THE INTERSECTION OF US 17 AND SR 16 THE DRIVER WAS STILL ATTEMPTING TO GET THE TARP TO FULLY RETRACT ON THE ROLLER SYSTEM. I ACTIVATED MY EMERGENCY EQUIPMENT AND CONDUCTED A ANOTHER SAFETY INSPECTION OF THE VEHICLE. I COULD IMMEDIATELY SEE THE TREAD MISSING IN THE CENTER OF AXLE 4 FROM UNDER THE BOTTOM OF THE MUD FLAP. THERE WAS NOT SUFFICIENT TIME AS TO HAVE HAD THE TIRES REPLACED AS WELL AS THE STEERING LINKAGE FIXED ON THE INPUT SHAFT OF THE STEERING GEAR BOX.

WHEN I MADE CONTACT WITH THE DRIVER AGAIN I NOTICED HE WAS UTILIZING A HEAD SET. THE PERSON ON THE OTHER END WAS GIVING HIM INSTRUCTION AS TO ANSWER MY QUESTIONS I WAS ASKING. I DISCOVERED THIS BECAUSE THE DRIVER ACCIDENTALLY PUT THE PHONE ON SPEAKER VERSUS BLUE TOOTH TO THE HEADSET. I MADE THE DRIVER TAKE OFF THE HEADSET AND HUNG HIS PHONE UP SO NO ONE COULD INTERFERE WITH QUESTIONING. THE DRIVER EXPLAIN HE DOESN'T SPEAK BUT LITTLE ENGLISH. I ASKED HIM WHERE HE WAS COMING FROM. NO ENGLISH HE REPLIED. I ASKED FOR THE COMPANY'S PHONE NUMBER AGAIN HE SAID NO ENGLISH. I THEN ASKED HIM WHERE HE DROPPED HIS LOAD AT? THE DRIVER SAID NO ENGLISH.

I SHOWED THE DRIVER NUMEROUS (MORE THAN 4) ROAD SIGNS. HE WAS ONLY ABLE TO ANSWER 1 CORRECTLY. I DID NOT NEED TO PROVIDE THE TRAFFIC SIGN IMAGES TO HIM AS HE WAS UNABLE TO ANSWER ANY OF MY QUESTIONS FROM INITIAL CONTACT. HOWEVER, I ATTEMPTED TO ASSIST THE DRIVER AND CARRIER BY PROVIDING THIS ADDITIONAL TEST TO CONFIRM THE ELP VIOLATION. THE DRIVER AND TRUCK WERE AGAIN PLACED OOS AND ISSUED AN OUT OF SERVICE PENALTY TO THE COMPANY .

THE PERSON WAS ON THE PHONE WHEN I PROVIDED THE DRIVER WITH HIS INITIAL OOS IN SPAINISH AND EXPLAINED IN ENGLISH HE AND THE VEHICLE WERE OOS.

REMARKS

The driver was operating a Dodge dually with a GVWR of 14,000 pounds pulling a goose neck style car hauling trailer with a de-rated GVWR of 12,000 pounds laden with 3 vehicles. The combination was operating in INTERSTATE commerce from Houston, Texas to Jensen Beach, Florida.

The power unit was improperly registered and had a valid Florida straight plate registration. The combination weighs 31,100 lbs minus 26,000 lbs (legal declared weight) equals 5,100 lbs over legal weight at .05 cents per lb. A $255.00 penalty was assessed.

Vega did not have a lease agreement. I made contact with the owner of the USDOT number displayed on the side of the truck (EPL Transportation LLC) (USDOT # 4443673) identified as Evleen Lopez who confirmed Vega was allowed to operate under her USDOT number. (See dash cam video)

The vehicle combination weighed 31,100lbs. The driver was required to have a class A CDL and only had a valid Florida class E. A $100.00 penalty was assessed.

I made contact with the driver identified as Edel Gonzalez Vega. Vega could not understand what I was asking him to complete my inspection. Vega attempted to use a translator on his phone multiple times. Vega could not provide me with any information without the help of his translator app. A $100.00 penalty was assessed.

A check of Vega's inspection history showed one inspection in Georgia on 10-27-2025 (GA1438001337) and one inspection in Kentucky on 10-07-2025 (KYL749000144). Vega was placed out of service by both agency's for failing the English language proficiency requirements.

The inspection today will mark the 3rd time Vega has been placed out of service for failing the English Language requirements for operating a commercial motor vehicle in INTERSTATE commerce. A $5,000.00 fine was assessed, and Vega was taken to jail.

Total fine amount of 5,455.00

REMARKS

The driver was operating a Dodge dually with a GVWR of 14,000 pounds pulling a goose neck style trailer with a de-rated GVWR of 12,000 pounds laden with 2 vehicles. The combination was operating in INTERSTATE commerce from Houston, Texas to Miami, Florida.

The power unit was improperly registered and had a valid Florida straight plate registration. The combination weighs 31,700 lbs minus 14,999 lbs (legal declared weight) equals 16,701 lbs over legal weight at .05 cents per lb. A $835.05 Tax Class penalty was assessed.

I made contact with the driver identified as Yosmani Leiva. Leiva could not answer basic information I was asking to complete my inspection. Leiva had to call his dispatcher to translate everything I was needing. A $100.00 penalty was assessed.

Leiva was required to have a record of duty status and did not. A $100.00 penalty was assessed.

The vehicle combination weighed 31,700lbs. Leiva is required to have a class A CDL and only has a Florida class E license. A $100.00 penalty was assessed.

Leiva was displaying the company name of (Twins Power Logistics LLC) (USDOT # 4457256). I made contact with the owner of that USDOT # due to Leiva having a valid lease agreement. The owner stated he was not suppose to be using that company. Leiva could not provide me with any other lease agreement. The inspection was placed in the registered owner's name of the truck and a $500.00 penalty was assessed for failing to file.

Leiva did not have any operating authority while in INTERSTATE commerce. A $500.00 penalty was assessed.

Total fine amount : $2,135.05

REMARKS

CMV truck tractor/trailer combination, laden with an oversized load, in Interstate operations from TX to FL was stopped for a permit violation & check. The inspection was conducted in accordance with F.S. 316.302(9) & 316.550. The CMV driver provided permit # 2582163 -2025-0001 with the load measuring 10' in width (9"-102"-9"). The CMV driver was observed passing an OPEN weigh station, which I called and verified they were open while catching up to the CMV, which they indicated it was OPEN. Per FAC 14-26 and the CMV drivers permit, "PERMITTED VEHICLE CANNOT BYPASS ANY OPEN WEIGH STATION". The CMV driver attempted to inform me that he has PrePass, however was informed that in FAC 14-26 he is still required entiry: 14.26.012(6) All vehicles, including vehicles equipped with an automatic vehicle identification system, must stop at open weigh stations. Vehicles operating under an internal (inner) bridge permit may bypass an open weigh station when a Department approved electronic credentialing device instructs the vehicle to proceed.
Further the penalty is assessed as required in FAC 14.26.015(f) Any vehicle operating on an oversize/overweight permit (excluding inner bridge permits) which bypasses an open weigh station will be assessed a penalty of $1,000.00.

The carrier is assessed a penalty of $1,000.00 and the driver was advised of payment, protest, & permit compliance.

From: Barry Frison <frisontrucking0301@gmail.com>
Sent: Sunday, November 30, 2025 3:26 PM
To: Commercial Vehicle Review Board
Subject: Waive or reduce

To whom it may concern:

This letter is to protest citation number 000897305 given to me 11/11/2025 for being over weight limit. I am driving a 26-foot box truck with capacity of 26,000 pounds non-cdl. I was carrying 9,600 pounds. Before I arrived at the weigh station I filled both my tanks up with diesel fuel. This is what I think caused me to be 240 pounds overweight. I think if both tanks were not just filled with diesel I would not have been overweight. Please accept this request to waive the fine or reduce for being overweight.

Warmest Regards,
Barry Frison

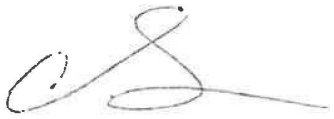
RE: FLHSMV Citation 000896646

December 1, 2025

To whom this may concern,

This letter is to protest the fine received on citation number 000896646 given to our driver Paul Serrato. At the scene officer advised of a permit needed before leaving the location. We promptly worked on and obtained the permit (attached to this letter). Driver was told that the fine would be waived if we purchased the permit. Our team did not expect the fine to still be open after the permit was purchased as requested on site. Please advise if you need further information to consider waiver of the fine.

Thank you,



Cynthia Coronel

Subject: Protest

Good morning, I Howard Layten Powell is writing you to dispute citation 000897539.
I left Wal-Mart DC 7035D-DSDC in Alachua, FL where i made a delivery. I had to drop trailer at dock for unloading. Tandem were slid to the car rear for unloading purposes. After being unloaded/empty, i hooked buck up to trailer then existed to head home because my son called and i was done with work. I was then pulled over by officer Beebe, C. He said he was giving me a DOT inspection. No problem, i provided all required documents. He then told me to wait one minute while he goes to patrol vehicle. Upon return he brings citation. I questioned what for and he replied "trailer is to long." I was confused and said that is incorrect. He then said my kingpin is to far back and i need to move it closer to the tractor because in Florida, the legal length is 41ft and mine is 44ft. I then informed him i heading home and i just made a delivery at Wal-Mart in Alachua and my tandems was moved. After telling officer Beebe that I also told him it is impossible that my trailer it to long and he must be talking about my tandems are to far back. He was like oh yea but i dont need to worry about it. It's not my problem is the companies problem. He also stated that he stopped other drivers that drive for this company and did the same thing. "No big deal" well i then corrected the tandems and asked him to remeasure. So he did and said that it passed "correct". I then asked why are you still citing me and it's fixed. He then told me it's my company responsibility to fix the trailer.

Subject: Protest of Citation #000879722 – Oversize Load Routing

Dear Review Board Members,

I am writing to formally protest Citation #000879722 issued on July 22, 2025, in Escambia County, Florida, for alleged operation of an oversize load on a non-permitted section of the highway.

On the date in question my oversize load was operating under the terms of a valid Florida oversize permit. The route was planned in compliance with the permit requirements.

However, upon approaching the construction zone near exit 5, I encountered conditions that created significant safety concern. Due to lane restrictions, my load's width prevented safe passage in the right lane. As directed by construction signage and for the safety of all motorists, I moved to the left lane to navigate through the area.

The permit required exiting at mile marker 5; however, at the time, it was unsafe to do so because:

Construction barriers and lane configuration made maneuvering into the right lane for the exit dangerous given my load width and weight.

Traffic congestion in the work zone increased the risk of a collision if I attempted to cross lanes at that location.

Safety obligations under FMCSA and state regulations require operators to prioritize public and load safety over strict adherence to routing when immediate hazards are present.

These conditions left no safe option other than to proceed through the construction area until a safe opportunity to exit was available. My actions were made in good faith to comply with safety requirements and to prevent endangering other motorists, workers, and my load.

At mile marker 6, an active construction zone narrowed lane availability, forcing me into the left lane, as my width made it unsafe to remain in or return to the right lane.

The permit required exiting at exit 5, but attempting this amid congestion and construction would have compromised safety, for both my cargo and surrounding motorists.

Proceeding further on I-10 until it was safe to exit was the most prudent and responsible action under the circumstances.

Legal Basis and Safety Considerations

Florida Statute §316.550(2) authorizes operation under a special permit, specifying routes and stipulations. However, the statute also recognizes that safety-related deviations may arise when hazards are encountered.

Florida Statute §316.550(10)(c) provides penalty guidelines for violating operational or safety stipulations—up to $1,000 per violation—which indicates that safety deviations, though penalized, are acknowledged under the law

Administrative rules under FDOT reinforce that permits designate approved routes; nonetheless, real-world conditions like construction or congestion may justify temporary deviations when safe compliance is not feasible

The permit itself mandates adherence to terms, but it does not compel a driver to endanger others when complying; indeed, statutes envision safety-first decision-making, especially when unanticipated hazards arise.

This deviation from the permitted exit at mile marker 5 was driven by immediate safety concerns—not willful noncompliance. It was executed in good faith, with the welfare of the public and cargo as paramount.

I respectfully request that the Board:

1. Consider the statutory emphasis on safe operation under §316.550, and the allowance—implicitly recognized in the penalty structure for deviations motivated by safety.
2. Acknowledge that proceeding through the constrained segment of I-10 was a reasonable and responsible decision under the circumstances.
3. Waive or reduce the citation based on the exceptional conditions encountered.

Thank you for your time and understanding in reviewing this matter. I am prepared to provide any additional documentation, including my permit, to support this protest.

Sincerely,

Dayton A Williams

REMARKS

CMV truck tractor/trailer(s) combination, laden with an oversized load, and operating on permit #2531851-2025-0001, was observed traveling westbound on Interstate 10. The inspection was conducted in accordance with F.S. 316.302(9), 316.545(1), & 316.550. The CMV was followed from the 10 mile marker over the structure over the 5 mile marker (US-90) to the westbound WIM for a permit check. (Video). The CMVs permit required the CMV to EXIT at the 5 mile marker westbound and get back onto Interstate 10. The CMV failed to do so and was captured on in car video, continuing over the structure. The CMVs permit is NULL-N-VOID in accordance with FAC 14-26 for weight and dimensions. The legal weight for the CMV is 80,000lbs and is weighing 222,840lbs. This makes the CMV over legal weight by 142,840lbs with a penalty assessed at $0.05 per lbs over for an assessment of $7,142.00. The CMVs width was measured with the assistance of Trooper Myers to be 12'4" with legal being 8'6". This makes the CMV over width by 3'11" with a penalty assessed at $250.00 a foot/portion there of for an assessment of $1,000.00. The CMVs height was measured to be 14'6" with legal being 13'6", penalty assessed at $250.00 a foot/portion there of for an assessment of $250.00.

The total assessment to the carrier is $8,392.00 with the driver advised of payment & protest.

Not assessed: First set of tri-axles weighing 60,380lbs, legal is 60,000lbs. Over by 380lbs with penalty $0.05 per lbs over for an assessment of $18.00.

Subject: Follow-Up Appeal of Citation #000879722 – Oversize Load Routing

Dear Members of the Review Board,

I respectfully submit this follow-up appeal regarding Citation #000879722, issued July 22, 2025, in Escambia County for alleged operation of an oversize load on a non-permitted section of I-10. I sincerely appreciate the Board's time in reviewing my original protest. However, I request reconsideration based on additional supporting evidence and clarification of the exceptional safety circumstances present that day.

I am a solo owner operator leased to Landstar Inway and on July 22, my vehicle operated under a valid Florida Oversize/Overweight Permit, and the route was planned in full compliance with permit requirements. As I approached Exit 5, I encountered unexpected construction that rendered compliance unsafe. The right lane—which the permit required for exit—was closed in multiple sections due to active work and concrete barriers. Heavy traffic, restricted shoulders, and reduced lane width created conditions in which merging into or remaining in the right lane would have posed a serious risk of collision or equipment damage.

In accordance with construction signage and FMCSA safety obligations, I temporarily remained in the left lane to maintain control and ensure the safety of motorists and workers. Proceeding to a safe point beyond the construction area was the only responsible course of action under those conditions.

New Supporting Evidence (Exhibit A)

Attached is a traffic map image documenting right-lane closures along I-10 near Exit 5 in Escambia County. The map clearly shows multiple right-lane shutdowns leading up to and through the pe

exit area. This demonstrates that the route could not be safely followed as issued. My brief deviation was an emergency safety response, not willful non-compliance.

Legal and Safety Considerations

Florida Statute § 316.550(2) authorizes operation under special permit but anticipates the need for driver judgment in unsafe conditions. Subsection (10)(c) acknowledges that deviations motivated by safety may occur, reflecting a "safety-first" intent within the statute. FDOT operational rules likewise prioritize protection of life and property over strict adherence when compliance would create immediate danger.

My actions that day were consistent with these principles: I acted in good faith, under lawful permit, and solely to prevent endangerment. The deviation was temporary, minimal, and directly caused by circumstances outside my control.

In light of this new evidence and the statutory emphasis on safe operation, I respectfully ask the Board to:

1. Reconsider its prior decision in view of Exhibit A and the safety hazards documented.
2. Acknowledge that the deviation resulted from unavoidable construction conditions; and
3. Dismiss or **substantially reduce** the citation accordingly.

I am available to provide any additional supporting material the Board may require.

Thank you for your time, attention, and commitment to a fair review of this matter.

Sincerely,

Dayton A. Williams
